

Bridge Buster

Down with the Tanks!

Bridge Destruction

This is a beautiful view of large-scale destruction. Destroy all but one A-10. Follow it to the bridge, then destroy it. Do you see the gray road that spans the two supports on the bottom? Give it a whole ton of Mavericks. In time it will break apart, and pieces of it will fall to the ground!

Bank to Sea

ow, position yourself for the best view of this. Either a side view or looking up at the edge of the road will do. Watch as the tanks come up the hill, heading towards your destroyed bridge. They will fall in, one after another, right into the sea.

ven cooler is the fact that you can shoot at them while they are in mid-air, thus causing them to spin, flip, and do all sorts of cool tricks. You can even get a line of tanks in disarray heading for the ocean.
