## **Reporting Bugs**

If you find a bug in our software, it would be helpful if you reported the bug to us. To report a bug, please e-mail us with Bug Report Request in the subject line. In your e-mail, include the following information:

What type of PalmPilot you are using (i.e. Personal).

The software name and version number (i.e. Galaxy 1.40).

The error number and the exact contents of the error message.

A brief description of how we can recreate the error.

Your name and e-mail address so we can contact you when the bug is fixed.

It is best to report bugs by Email, so that the programmers have a written record of the information they need to solve the problem. As soon as we receive your Email, we will examine the problem, and fix it. Because our programmers are busy creating software, it can take a while for them to reply, but they will release a new version of the software that fixes the bug as soon as they can.

## Galaxy

Fly across the enemy terrain and destroy the opponents. What you need are concentration and reflexes.

## New Game

In the main applications screen of your device, tap the Galaxy icon. The logo screen will appear. Tap **Start** to begin.

## The Sound Option

To switch on the sound of the game, go to **Menu|Preferences|Sound On**. Alternatively, go to **Menu|Preferences|Sound Off** to play the game in silence.

## Play Galaxy

The aim of the game is to make as many points as possible. Thus you will complete the levels of the game and will become one of the top players.

You start the game with five lives. If you lose a life, you will lose 50 points too.

### The Opponents

There are three types of opponents:

- They make two shots at a time. If you hit them, they turn into opponents of the second type.

- They make one quick shot. If you hit them, they turn into opponents of the third type.

- They make one ordinary shot. If you hit them, you destroy them and gain 15 points.

All the opponents are moving from one end of the screen to the other. When they reach the end of the game board, they move one row down.

The moving speed of the opponents increases, when their number decreases, i.e. if you have shot some of them.

## The Bonuses

A flying object passes the upper part of the game board during certain periods of time. If you hit it, you can get a bonus. There are 5 kinds of bonuses:

-  - it decreases the moving speed of the opponents for a certain time
-  - it increases the moving speed of the player
-  - you can shoot down more than one opponent with one shot
-  - builds a defense wall around the player
-  - gives you a bonus life

If you get a bonus, your score increases with 50 points.

## Game over

The game is over, if the opponents reach the level of the player.

## Scoring

If you get a bonus, your score increases with 50 points.

If you lose a life, you will lose 50 points too.

To view scores go to **Menu|Game|High Score** and the following screen will appear:

	Name	Score	Level
1	John	1080	2
2	John	520	1

## Help

Galaxy offers some simplified internal help. You can find there some basic information of the rules of the game and its final goal.

To view these tips go to **Menu|Help|Help**. The following screen will appear:

Tap **Done** to quit the screen.

## The End

Well, that's all for now. Enjoy your time with **Galaxy!**
