Chips and DIPS is a shareware arcade style game. All of the instructions for the game are available from within the game by selecting About from the apple menu or by pressing the ? key after the game screen comes up.

The Macintosh version of Chips & DIPS requires the following:

Mac II or higher

640 x 480 Color monitor (8 bit preferred)

32 bit Quickdraw

System 6.0.5 or higher (may work with earlier, but untested)

Files:

Chips & DIPS - this is the program file for the game.

DATAFILES - this is the folder which contains the levels used by the game. If you have the Chips & DIPS Designer (sent to all registered owners), you can design new levels for the game and they will be placed in this folder. They must be named LEVEL1, LEVEL2, etc. The game ends when the next level file does not exist.

Chips & DIPS Designer - This is the Chips & DIPS Designer program which is sent to all registered owners. This program must be located in the same folder as the Chips & DIPS program.
