MORE GOURMET RECIPES

It's been several months since the last batch of recipes was uploaded. But hey, I got married, changed jobs, moved, etc. Oh, and an electrical storm zapped our modem. Hope to keep these recipes coming now that I'm settled

These recipes are the SIXTH batch to be uploaded to Milwaukee area bulletin boards. As with previous GOURMET compilations, I have included the ASCII text files and the WordPerfect files for the recipes, as well as a categorized list (BBS5-WP.LST or its ASCII version BBS5.LST).

To help you better locate recipe files, the WordPerfect files have .WP extensions and the ASCII files have no extension. I have named the files with the first eight letters of the names given on the list, skipping over spaces or hyphens. Where the name is different due to duplication on my own system, the correct filename appears in parentheses.

As before, these are for your enjoyment. However, if you feel I have saved you the cost of a cookbook, please send a small donation to:
