This simple Worksheet demonstrates the variety of graph types that are available in AS-EASY-AS, while, at the same time, demonstrating some of it's unique macro capabilities!

— — — —
The menus displayed on the left, and the underlying actions taken, are all created using AS-EASY-AS macros. Simply move the cursor to the type of graph that you want to access and press [ENTER]! The graph will be automatically displayed on the screen, until you press any key on the keyboard.
