June 1, 1992

NetWare UpGrade

NetWare UpGrade Notes

1. Only Novell authorized resellers are permitted to sell NetWare upgrades.
2. All prices are stated in U.S. dollars. Top part number in each cell specifies 5.25" media. Bottom part number in each cell specifies 3.5" media.
3. Downgrades or upgrades resulting in a credit are not allowed.
4. Distributors/NROs must inventory NetWare upgrade product. Your Novell account manager will work with you to be sure you have the right products.
5. Distributors/NROs must inventory the no-charge NetWare upgrade order forms and provide these to the reseller. The UpGrade Order Form must be used by the reseller to process all NetWare upgrade purchases. Upon receiving each upgrade under the form, the user must destroy or archive the product being upgraded. Once a product is upgraded, the earlier version cannot be used, transferred or sold by anyone, including resellers, distributors/NROs or other agents. Violation of this policy will be considered cause for immediate termination of the reseller agreement.
6. The Novell reseller must provide the original white and gold copies of the completed NetWare upgrade order form to the distributor/NRO along with the original serialized diskette(s) from the system being upgraded. All forms should be completed in English, either printed or typewritten.
7. Distributors/NROs will return the original white copy of the NetWare upgrade agreement and a photocopy of the serialized diskette(s) to the Novell order services department at intervals specified by the account manager, but no less than one time per month. The photocopy must clearly show the part number. Return agreements to Novell, Inc. at:

International:
Attn: International Upgrade Administration
1650 Berryessa Road
San Jose, CA 95133

U.S. and Canada:
Attn: Upgrade Administration
122 East 1700 South
Provo, UT 84606
8. **Audit:** The number of NetWare upgrades shipped to the distributor/NRO should equal the number of NetWare upgrades in inventory plus the completed NetWare upgrade agreements and photocopies of system diskettes on hand.
9. Future shipment of Upgrade product is dependent upon an up-to-date audit process and timely resolution of any discrepancies.
10. Discrepancies will be charged back to the distributor/NRO at the standard system price for the product less distributor/NRO discount.

NetWare UpGrade

June 1, 1992

Non-NetWare Product Migration Matrix

Competitive Product	Equivalent NetWare Product
Level I (2 to 10 Users unless otherwise noted) Microsoft LAN Manager v1.x or v2.x IBM PC LAN IBM LAN Server v1.x or v2.x 3Com 3+ Share v1.x (5-User) 3Com 3+ Open v1.x Banyan Vines/286 (unlimited)	ELS NetWare Level I v2.1x
Level II (51 to 100 users unless otherwise noted) Microsoft LAN Manager v1.x or v2.x IBM LAN Server v1.x or v2.x 3Com 3+ Open v1.x Banyan Vines/386 (2 to 10)	ELS NetWare Level II v2.1x
Level III (51 to 100 users unless otherwise noted) Microsoft LAN Manager v1.x or v2.x IBM LAN Server v1.x or v2.x 3Com 3+ Open v1.x Banyan Vines/386 (unlimited)	Advanced NetWare v2.1x
Level IV (101 users or greater) Microsoft LAN Manager v1.x or v2.x IBM LAN Server v1.x or v2.x 3Com 3+ Open v2.x Banyan Vines v4.x	SFT NetWare v2.1x

Instructions:

1. Novell allows a single NetWare UpGrade from a given non-NetWare product serial number.
2. Locate the non-NetWare product being upgraded on the left hand column.
3. Locate the equivalent NetWare product on the right hand column. Obtain the price and part number from the regular NetWare UpGrade matrix using the Equivalent NetWare Product as the product being UpGraded From.
4. The NetWare UpGrade Order Form must be completed showing all of the information requested on the form. Non-NetWare products being UpGraded to NetWare must include the master diskette(s) showing the non-NetWare product serial number as a proof of ownership.

Example:

A customer who currently owns 3Com 3+ Open v1.x for 30 licensed users wishes to upgrade to NetWare v3.11 50-User. The reseller locates the current 3Com product on the left hand side of the matrix above and observes that the equivalent NetWare Product, as shown on the right hand side of the matrix above, is ELS NetWare II v2.1x.

The reseller then looks at the regular NetWare UpGrade matrix, locates ELS NetWare II v2.1x as the product being upgraded FROM, and moves across the matrix to the v3.11 50-User column. The cell indicates the price and part number for UpGrading from ELS NetWare II v2.1x to NetWare v3.11 50-User. The customer provides the NetWare Authorized Reseller with the necessary proof of ownership as described above including the 3Com 3+ Open serial number. The reseller provides this information to Novell using the NetWare UpGrade Order Form.

Novell/Microdyne Comparison Chart

June 1, 1992

Novell Product Name	Novell PN/ Microdyne PN	Microdyne Name	Description	Price
IBM Connectivity				
NetWare 3270 CUT Workstation v1.1	905-301806-001	EXOS 3270 CUT	Single session terminal emulation to IBM hosts.	\$350
NetWare 3270 Multi Workstation v2.0	905-302033-002	EXOS 3270 Multi	Provides terminal emulation to IBM hosts. Supports five concurrent sessions.	\$475
NetWare 3270 Multi Workstation v1.1	905-302033-001	EXOS 3270 Multi v1.1	Discontinued; see PN 905-302033-002 above.	
Token Ring Server Option v2.0	883-000758-002	EXOS 3270TR	A single station emulation product for PC or PS/2 on a Token Ring. Supports five concurrent sessions.	\$3,995
Token Ring Server Option v1.1	883-000758-001	EXOS 3270TR v1.1	Discontinued; see PN 883-000758-002 above.	
NetWare 3270 Vector Graphics Option v2.0	905-301926-002/ 905-301926-003	EXOS 3270 Vector Graphics Option v2.0	Single user license	\$295
NetWare SNA Gateway	905-302031-001	EXOS SNA Gateway Version 1.3.01	A high-end LAN-to-Mainframe software connectivity product, allowing workstations on a LAN to access IBM SNA host applications on an IBM mainframe or mid-range computer.	\$2,995
NetWare SNA Gateway ELS	905-302032-001	EXOS SNA Gateway ELS Version 1.3.01	A low-cost entry level EXOS SNA Gateway.	\$ 595
	883-002214-001	EXOS 3270 LAN Workstation for SNA Gateway Version 1.0	Client workstation software that provides IBM host sessions to a LAN workstation user via connection to one of the EXOS SNA Gateways. Supports one DOS Session, five Host Sessions (display/print), and file transfer.	\$1,495
Novell Coax/Mux Adapter for PC	905-301804-001	EXOS Coax/Mux Adapter	Full length option card allowing the PC to connect to an IBM cluster controller using standard type A coax. Replaces a Multiplexer, provides support for up to forty (40) concurrent 3270 session from the LAN. Supports EXOS SNA Gateway and EXOS SNA Gateway ELS.	\$1,100
NetWare for SAA Synchronous Adapter for PC	883-001318-001	EXOS SAA Synchronous Adapter for PC	A synchronous serial interface board with one 25-pin connector, connects a PC via a synchronous modem to an IBM 37XX communications processor.	\$895
NetWare for SAA Synchronous Adapter for PS/2	883-000931-001	EXOS SAA Synchronous Adapter for PS/2	A synchronous serial interface board with one 25-pin connector, connects a PS/2 via a synchronous modem to an IBM 37XX communications processor.	\$895

IBM Connectivity Upgrades

4400183	Software Upgrade for 3270 Multi	Version 1.1 to 2.0	\$150

Novell Product Name	Novell PN/ Microdyne PN	Microdyne Name	Description	Price
IBM Adapters				
Novell Coax Adapter for PC	905-301800-001	EXOS 3270 COAX	COAX Adapter for PC. Connects PC to IBM cluster controller.	\$545
Novell Synchronous Adapter for PC	905-301801-001	EXOS 3270 SYNC	COAX adapter for PC. Connects synchronous adapter for PC. Serial interface to connect synchronous modem to 3270 comm. processor	\$395
Novell Synchronous/V.35 Adapter for PC	883-000757-001	EXOS 3270 V.35	Synchronous adapter for PC V.35. Interface to connect synchronous modem to IBM 37XX communications processor.	\$595

TCP/IP Products

LAN WorkPlace for DOS 3.5	9870094-00	EXOS NetStation for DOS 3.5	DOS software for concurrent access to TCP/IP resources & NetWare file servers. Used w/EXOS 205 intelligent controllers.	\$350
LAN WorkPlace for UNIX	9870102-00	EXOS NetStation for UNIX	TCP/IP workstation software for UNIX. Used w/EXOS 205 intelligent controllers.	\$695
LAN WorkPlace for XENIX 386	9870049-00	EXOS NetStation for XENIX 386	TCP/IP workstation software for XENIX. Used w/EXOS 205 intelligent controllers.	\$695
LAN WorkPlace for XENIX 286	9870050-00	EXOS NetStation for XENIX 286	TCP/IP workstation software for XENIX. Used w/EXOS 205 intelligent controllers.	\$595
LAN WorkPlace for Interactive UNIX	9870103-00	EXOS NetStation for Interactive UNIX	TCP/IP workstation software for Interactive UNIX used w/EXOS 205 intelligent controllers.	\$695
Socket Library for Application Programming Interface	9870043-00	Socket Library for Application	Programmers interface and development kit for NetStation software	\$295
HostShare	9870097-00	Host Share	Programming Interface Transparent user interface between DOS workstations and UNIX servers	\$150

WAN Connectivity

NetWare X.25 Gateway v1.2	883-001020-001	EXOS X.25 WAN Gateway	Software allows for remote access to an X.25 Host	\$1,195
---------------------------	----------------	-----------------------	---	---------

WAN Adapters

	905-302013-002	EXOS X.25 Extended Adapter for PC	Sophisticated communications card which features a Motorola 68008 microprocessor, 1 MB of memory and a RS-232-C (V.24) port. Supports EXOS Link/X.25 and EXOS X.25 WAN Gateway software.	\$1,495
	883-001074-002	EXOS X.25 Extended Adapter for PS/2	Sophisticated communications card which features a Motorola 68008 microprocessor, 1 MB of memory and a RS-232-C (V.24) port. Supports EXOS Link/X.25 and EXOS X.25 WAN Gateway software.	\$1,495

NetWare Access Server				
	883-002180-001	NetWare Access Server by Microdyne (4 Port, AUI/10BASE-2)	Integrated, Ready-to-use Dial-In Communication Server. Includes 80386DX/33 MHz CPU, four high speed modems, asynchronous adapter, 10BASE-2 Ethernet adapter and Novell's Netware Access Server software v1.22. Also includes OnLAN/PC and OnLAN/Mac remote communication software.	\$8,995
	883-002181-001	NetWare Access Server by Microdyne (4 Port,AUI/10BASE-T)	10BASE-T version of above	\$8,995
	883-002182-001	NetWare Access Server by Microdyne (4 Port, Token Ring)	Token Ring version of above	\$9,695
	883-002183-001	NetWare Access Server by Microdyne (8 Port, AUI/10BASE-2)	Integrated, Ready-to-use Dial-In Communications Server. Includes 386DX/33 MHz CPU, eight high speed modems, asynchronous adapter, 10BASE-2 Ethernet adapter and Novell's NetWare Access Server software v1.2. Also includes OnLAN/PC and OnLAN/Mac remote communication software.	\$13,995
	883-002184-001	NetWare Access Server by Microdyne (8 Port, AUI/10BASE-T)	10BASE-T version of above	\$13,995
	883-002185-001	NetWare Access Server by Microdyne (8 Port, Token Ring)	Token Ring version of above	\$14,695
	883-002192-001	Asynchronous Communications Adapter by Microdyne (8 Port)	Companion Product for build-your-own Access Server and NACS. High Speed intelligent adapter with onboard processor and 512KB dual-ported RAM. Supports up to eight RS-232 serial connections at 38.4 Kbps. Includes adapter, 8-port serial cable and drivers.	\$1,495
	883-002193-001	Access Modem by Microdyne	Companion Product for build-your-own Access Server and NACS. High performance modem operates at Kbps with serial interface to 57.6 Kbps. Supports CCITT V.32bis, V.32, V.22bis, Bell 212a and 103A modulation; CCITT V.42bis data compression; MNP Class 10 and CCITT error correction. Includes Novell's OnLAN/PC and OnLAN/Mac remote access software.	\$899
