

LOADING CUE CARDS.....

Fax PagePilot

These Cue Cards will help you to complete your fax.

What do you need help with?

-  Typing in new text
-  Editing existing text
-  Changing the font
-  Resizing text
-  Checking the spelling
-  Saving my fax
-  Printing my fax

Tip 

If the task you need help with isn't listed, select **Contents** from the Pressworks' **Help** menu for a concise guide to all the Pressworks' features.

How to type in new text

Select Text mode from the mode box. Click the pointer where you want to type in your text, then start typing. Continue typing until your fax is complete.

Text in a Pressworks document must be in a frame; this document already has frames for you to use.

How to edit existing text

Select Text mode from the mode box. Click the pointer where you want to edit your text, then do any of the following:

- ◆ to insert text: start typing
- ◆ to delete text: press **Backspace** or **Delete**
- ◆ to replace existing text with new text: select the text that you want to replace, then start typing.

Tip

To select text, position the pointer where you want the selection to start, then drag the pointer to the end of the selection.

How to change the font

Select Text mode from the mode box. Select the text whose font you want to change, then click on the arrow next to the **Font** box:

A list of available fonts drops down; to see more fonts, scroll the list.

Click on the font that you want for the selected text.

To change the font of all text styled in a particular paragraph style, use Paragraph mode instead of Text mode to make your selection.

How to resize text

Select Text mode from the mode box. Select the text that you want to resize, then click on the arrow next to the **Point Size** box:

A list of available point sizes drops down; to see more point sizes, scroll the list.

Click on the point size that you want for the selected text.

To resize all text styled in a particular paragraph style, use Paragraph mode instead of Text mode to make your selection.

How to check the spelling

Click the pointer outside the page area to ensure that there are no frames or blocks of text selected.

Click on the **Check Spelling** button in the General Tools.

If Pressworks finds a word that it does not recognise, the **Check Spelling** dialog appears offering you alternative spelling suggestions.

For a full description of the various options on the **Check Spelling** dialog, click on its Help button.

How to save your fax

Select **Save As** from the **File** menu. The **Save Document As** dialog appears.

Select the disk drive and directory where you want to save your fax, then type in a name that's easy to remember. (This name can contain up to eight characters.)

Click on **OK**.

For a full description of the various options on the **Save Document As** dialog, click on its Help button.

How to print your fax

Select **Print** from the **File** menu. The **Print** dialog appears.

Choose from the various print options on this dialog, then click on **OK**. A box appears to let you know how your printout is progressing.

To abandon printing, click on **Cancel**.

For a full description of the various options on the **Print** dialog, click on its Help button.

LOADING CUE CARDS.....

Memo PagePilot

These Cue Cards will help you to complete your memo.

What do you need help with?

-  Typing in new text
-  Editing existing text
-  Resizing text
-  Colouring text
-  Checking the spelling
-  Saving my memo
-  Printing my memo

Tip 

If the task you need help with isn't listed, select **Contents** from the Pressworks' **Help** menu for a concise guide to all the Pressworks' features.

How to type in new text

Select Text mode from the mode box. Click the pointer where you want to type in your text, then start typing.

Continue typing until your memo is complete.

Tip

Text in a Pressworks document must be in a frame; this document already has frames for you to use.

How to edit existing text

Select Text mode from the mode box. Click the pointer where you want to edit your text, then do any of the following:

- ◆ to insert text: start typing
- ◆ to delete text: press **Backspace** or **Delete**
- ◆ to replace existing text with new text: select the text that you want to replace, then start typing.

Tip

To select text, position the pointer where you want the selection to start, then drag the pointer to the end of the selection.

How to resize text

Select Text mode from the mode box. Select the text that you want to resize, then click on the arrow next to the **Point Size** box :

A list of available point sizes drops down; to see more point sizes, scroll the list.

Click on the point size that you want for the selected text.

To resize all text styled in a particular paragraph style, use Paragraph mode instead of Text mode to make your selection.

How to colour text

Select Text mode from the mode box. Select the text to which you want to apply colour, then click on a colour in the colour bar:

To add more colours to the colour bar, click on the + button at the right-hand edge. The **Add Colour** dialog appears for you to mix the colour of your choice.

Tip

- ◆ To colour all text styled in a particular paragraph style, use Paragraph mode instead of Text mode to make your selection.
- ◆ For a full description of the various options on the **Add Colour** dialog, click on its Help button.

How to check the spelling

Click the pointer outside the page area to ensure that there are no frames or blocks of text selected.

Click on the **Check Spelling** button in the General Tools.

If Pressworks finds a word that it does not recognise, the **Check Spelling** dialog appears offering you alternative spelling suggestions.

For a full description of the various options on the **Check Spelling** dialog, click on its Help button.

How to save your memo

Select **Save As** from the **File** menu. The **Save Document As** dialog appears.

Select the disk drive and directory where you want to save your memo, then type in a name that's easy to remember. (This name can contain up to eight characters.)

Click on **OK**.

For a full description of the various options on the **Save Document As** dialog, click on its Help button.

How to print your memo

Select **Print** from the **File** menu. The **Print** dialog appears.

Choose from the various print options on this dialog, then click on **OK**. A box appears to let you know how your printout is progressing.

To abandon printing, click on **Cancel**.

For a full description of the various options on the **Print** dialog, click on its Help button.

LOADING CUE CARDS.....

LOADING CUE CARDS.....

Newsletter PagePilot

These Cue Cards will help you to complete your newsletter.

What do you need help with?

 Deleting example text

 Typing in new text

 Editing existing text

 Adding a picture

 Checking the spelling

 Saving my newsletter

 Printing my newsletter

Tip 

If the task you need help with isn't listed, select **Contents** from the Pressworks' **Help** menu for a concise guide to all the Pressworks' features.

How to delete example text

The Latin text in your newsletter is an imported file. To delete this file:

Select Frame mode from the mode box, then click on a frame that is filled with Latin text.

The corresponding text file is highlighted in the Contents box.

Click on the **Delete Item** button at the foot of the Contents box, then click on **Yes** when prompted.

Any remaining example text can be deleted by selecting the text in Text mode, then pressing the **Delete** key on your keyboard.

How to type in new text

Select Text mode from the mode box. Click the pointer where you want to type in your text, then start typing. Continue typing until your newsletter is complete.

Text in a Pressworks document must be in a frame; this document already has frames for you to use.

How to edit existing text

Select Text mode from the mode box. Click the pointer where you want to edit your text, then do any of the following:

- ◆ to insert text: start typing
- ◆ to delete text: press **Backspace** or **Delete**
- ◆ to replace existing text with new text: select the text that you want to replace, then start typing.

Tip

To select text, position the pointer where you want the selection to start, then drag the pointer to the end of the selection.

How to add a picture

If you didn't choose a picture during the PagePilot, you can do so now:

Select Frame mode from the mode box, then select an empty frame in which to place the picture.

Click on the **Import Picture** button in the Contents box. The **Import Picture** dialog appears.

Select the picture you want to import, then click on **OK**.

Tip 

For a full description of the various options on the **Import Picture** dialog, click on its Help button.

How to check the spelling

Click the pointer outside the page area to ensure that there are no frames or blocks of text selected.

Click on the **Check Spelling** button in the General Tools.

If Pressworks finds a word that it does not recognise, the **Check Spelling** dialog appears offering you alternative spelling suggestions.

For a full description of the various options on the **Check Spelling** dialog, click on its Help button.

How to save your newsletter

Select **Save As** from the **File** menu. The **Save Document As** dialog appears.

Select the disk drive and directory where you want to save your newsletter, then type in a name that's easy to remember. (This name can contain up to eight characters.)

Click on **OK**.

For a full description of the various options on the **Save Document As** dialog, click on its Help button.

How to print your newsletter

Select **Print** from the **File** menu. The **Print** dialog appears.

Choose from the various print options on this dialog, then click on **OK**. A box appears to let you know how your printout is progressing.

To abandon printing, click on **Cancel**.

For a full description of the various options on the **Print** dialog, click on its Help button.

LOADING CUE CARDS.....

Report PagePilot

These Cue Cards will help you to complete your report.

What do you need help with?

 Deleting example text

 Typing in new text

 Editing existing text

 Editing headers and footers

LOADING CUE CARDS.....

Book PagePilot

These Cue Cards will help you to complete your book.

What do you need help with?

◆ Turning between pages

◆ Deleting example text

◆ Typing in new text

◆ Editing existing text

◆ Checking the spelling

◆ Saving my book

◆ Printing my book

If the task you need help with isn't listed, select **Contents** from the Pressworks' **Help** menu for a concise guide to all the Pressworks' features.

How to turn between pages

There are various ways to turn backwards and forwards through the pages of your book; one of the quickest is to use the page indicator at the bottom of the Pressworks window:

Click on the **Next Page** button to turn forward a page; click on the **Previous Page** button to turn back a page.

If you click on the **Next Page** button when you are already on the last page of your document, a message box will appear asking if you want to add a new page to your document. Click on **Yes** or **No** as appropriate.

How to delete example text

The Latin text on page two of your book is an imported file. To delete this file:

Select Frame mode from the mode box, then click on a frame that is filled with Latin text.

The corresponding text file is highlighted in the Contents box.

Click on the **Delete Item** button at the foot of the Contents box, then click on **Yes** when prompted.

Any remaining example text can be deleted by selecting the text in Text mode, then pressing the **Delete** key on your keyboard.

How to type in new text

Select Text mode from the mode box. Click the pointer where you want to type in your text, then start typing. Continue typing until your book is complete.

Text in a Pressworks document must be in a frame; this document already has frames for you to use.

How to edit existing text

Select Text mode from the mode box. Click the pointer where you want to edit your text, then do any of the following:

to insert text: start typing

to delete text: press **Backspace** or **Delete**

to replace existing text with new text: select the text that you want to replace, then start typing.

To select text, position the pointer where you want the selection to start, then drag the pointer to the end of the selection.

How to check the spelling

Click the pointer outside the page area to ensure that there are no frames or blocks of text selected.

Click on the **Check Spelling** button in the General Tools.

If Pressworks finds a word that it does not recognise, the **Check Spelling** dialog appears offering you alternative spelling suggestions.

For a full description of the various options on the **Check Spelling** dialog, click on its Help button.

How to save your book

Select **Save As** from the **File** menu. The **Save Document As** dialog appears.

Select the disk drive and directory where you want to save your book, then type in a name that's easy to remember. (This name can contain up to eight characters.)

Click on **OK**.

For a full description of the various options on the **Save Document As** dialog, click on its Help button.

How to print your book

Select **Print** from the **File** menu. The **Print** dialog appears.

Select **Booklet printing** from the **Paper Mapping** group box, then choose any other print options you require.

Click on **OK** to display the **Booklet Printing** dialog.

Select the paper options applicable to your printer, then click on **OK** to print your book.

For a full description of the various options on either the **Print** dialog or the **Booklet Printing** dialog, click on the dialogs Help button.

LOADING CUE CARDS.....

Business Cards PagePilot

These Cue Cards will help you to complete your business cards.

What do you need help with?

- ◆ Editing existing text
- ◆ Resizing text
- ◆ Editing my Company logo
- ◆ Saving my business cards
- ◆ Printing my business cards
- ◆

If the task you need help with isn't listed, select **Contents** from the Pressworks **Help** menu for a concise guide to all the Pressworks features.

How to edit existing text

Select Text mode from the mode box. Click the pointer where you want to edit your text, then do any of the following:

to insert text: start typing

to delete text: press **Backspace** or **Delete**

to replace existing text with new text: select the text that you want to replace, then start typing.

To select text, position the pointer where you want the selection to start, then drag the pointer to the end of the selection.

How to resize text

Select Text mode from the mode box. Select the text that you want to resize, then click on the arrow next to the **Point Size** box:

A list of available point sizes drops down; to see more point sizes, scroll the list.

Click on the point size that you want for the selected text.

To resize all text styled in a particular paragraph style, use Paragraph mode instead of Text mode to make your selection.

How to edit your Company logo

If the PagePilot created a PowerText logo for your Company, you can now edit the logo with ease:

Select Frame mode from the mode box, then double-click on the frame that contains the logo. The **PowerText** dialog appears.

Choose from the various effects on this dialog, then click on **OK**.

For a full description of the various options on the **PowerText** dialog, click on its Help button.

How to save your business cards

Select **Save As** from the **File** menu. The **Save Document As** dialog appears.

Select the disk drive and directory where you want to save your business cards, then type in a name that's easy to remember. (This name can contain up to eight characters.)

Click on **OK**.

For a full description of the various options on the **Save Document As** dialog, click on its Help button.

How to print your business cards

Insert your pre-printed business card paper in the printer, then select **Print** from the **File** menu. The **Print** dialog appears.

Choose from the various print options on this dialog, then click on **OK**. A box appears to let you know how your printout is progressing.

To abandon printing, click on **Cancel**.

- ◆ For a full description of the various options on the **Print** dialog, click on its Help button.
- ◆ To order more pre-printed paper contact Customer Services.

LOADING CUE CARDS.....

Compliments Slips PagePilot

These Cue Cards will help you to complete your compliments slips.

What do you need help with?

- ◆ Editing existing text
- ◆ Resizing text
- ◆ Editing my Company logo
- ◆ Saving my compliments slips
- ◆ Printing my compliments slips
- ◆

If the task you need help with isn't listed, select **Contents** from the Pressworks **Help** menu for a concise guide to all the Pressworks features.
