

## **Contents**

The following Help Topics are available:

- Registered Fonts
- Unregistered Fonts
- Orphaned Fonts
- Crosslinked Fonts

## **Registered Fonts**

These are all the fonts that are registered and available for use.

## **Unregistered Fonts**

These are all the True Type and Plotter fonts that are not registered. You must register these fonts before they can be used.

## **Orphaned Fonts**

These are fonts which are registered, but whose font files cannot be found at the location at which they are registered.

## **Crosslinked Fonts**

These are different fonts which are registered to the same file. Only one font name may be registered with any font file.
