WELCOME!

The *3D Coloring 20,000 Leagues Under the Sea* CD-ROM introduces children to one of the greatest literary works of all time through the use of engaging 3D coloring technology and the enduring art of storytelling. Using *20,000 Leagues Under the Sea*, children interact with Jules Verne's classic novel *20,000 Leagues Under the Sea* by coloring 3D adventure story scenes, listening to a dramatic retelling of a timeless adventure story, and creating personalized story slide shows and storybooks. By presenting a child-friendly adaptation of Jules Verne's classic within the highly motivating context of interactive technology, *20,000 Leagues Under the Sea* hopes to spark children's imaginations and inspire their creativity, both on the computer screen and off.

To add to children's *20,000 Leagues Under the Sea* learning experience, we've provided an *Extensions for Learning* guide for parents and teachers on the CD-ROM. The *Extensions for Learning* guide provides background information about the classic story, discussion starters, and lots of fun and educational arts and crafts, creative writing, and storytelling activities. This guide is available both on the CD-ROM (accessible from the Options screen within the Library screen by selecting the red button in the lower-right corner) and on your computer hard drive (accessible from Win3.1 machine in the IBM and Crayola Program Group and on Win95 from the start Menu | Programs | IBM and Crayola | 20,000 Leagues Under the Sea Extensions for Learning shortcut).

To listen to this classic story told by Master Talesman Odds Bodkin away from the computer, place the CD-ROM into a stereo CD player.

IBM MULTIMEDIA PROGRAM LICENSE AGREEMENT

PLEASE READ THIS AGREEMENT CAREFULLY BEFORE USING THE PROGRAM. BY USING THE PROGRAM, YOU AGREE TO ABIDE BY THESE TERMS AND APPLICABLE COPYRIGHT LAWS. IF YOU DO NOT AGREE, PROMPTLY NOTIFY THE PROVIDER OF THE PROGRAM AND REQUEST A REFUND OF THE AMOUNT YOU PAID.

The Program is owned by International Business Machines Corporation or its subsidiaries (IBM) or IBM's suppliers, and is copyrighted and licensed, not sold.

The term "Program" means the original programs and all whole or partial copies of it, including portions merged into other programs. The term "Program" includes 1) executable code and 2) Audio/Visual Content (A/V Content). The term "A/V Content" means any image, text, recording, picture or other audio and/or visual work.

IBM grants you a nonexclusive license for the Program. If IBM authorizes you for multiple licenses of the Program, the terms of this agreement apply to each license.

1. License

Under this license you may:

- I. use the Program on only one machine at any one time as follows
 - A. for a Program whose access is controlled by a license management tool, copies may be made and stored on machines under control of that tool, however, only the number of copies capable of being accessed at the same time are considered in use, and
 - B. in all other cases the Program is in use on a machine when it's resident in memory or on the hard disk or other storage device, however,
 - C. when the Program is installed on a network server for distribution purposes, it is not considered in use;
- II. copy the Program for backup;
- III. merge the executable code into another program; and
- IV. transfer all of your license rights in the Program to another party. To do so, you must transfer a copy of this Agreement, all other documentation, and at least one complete, unaltered copy of the Program to the other party. Your license is then terminated.

You must reproduce the copyright notice(s) and any other notice of ownership on each copy, or partial copy, of the Program.

You may not:

- I. use, copy, merge, or transfer the Program (including any A/V Content) except as provided in this Agreement;
- II. modify or print any A/V Content without the express written consent of the copyright owner or as permitted by law;

III. reverse assemble, reverse compile or otherwise translate the Program except as specifically permitted by law without the possibility of contractual waiver; or

IV. sublicense, rent, or lease the Program.

2. Limited Warranty

For European countries, warranty terms are contained in a separate transaction document. For all other countries, the following limited warranty terms apply.

THE PROGRAM IS PROVIDED "AS IS."

If the Program is delivered to you on a media, IBM warrants that the media will be free from defects in material and workmanship under normal use for a period of three months from the date of its delivery to the original user as evidence by a receipt. You may return defective media for a replacement. Otherwise, you may terminate your license, return all your copies of the Program, and the amount you paid for the Program will be refunded.

Availability and fees of support services are subject to change or discontinuance without notice. Any supplemental software code provided to you as part of the Support Services shall be considered part of the Program and subject to the terms and conditions of this license.

If the Program is delivered to you electronically, you provide the media. IBM does not warrant the media you provide.

THESE WARRANTIES REPLACE ALL OTHER WARRANTIES OR CONDITIONS, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

These warranties give you specific legal rights, and you may also have other rights that vary from jurisdiction to jurisdiction. Some jurisdictions do not allow the exclusion of implied warranties, so the above exclusion may not apply to you. In that event, such warranties are limited in duration to a period of three months from the date of delivery of the Program to the original end user. No warranties apply after that period.

3. Limitation of Liability

For European countries, limitation of liability terms are contained in a separate transaction document. For all other countries, the following limitation of liability terms apply.

Regardless of the basis on which you may be entitled to recover damages from IBM, for any claim (including fundamental breach), IBM's liability will be for actual damages only and will be limited to the greater of;

- I. the equivalent of U.S. \$5,000 in your local currency; or
- II. IBM's generally available license fee for the Program.

This limitation will not apply to claims for bodily injury or damages to real or tangible personal property for which IBM is legally liable.

IBM WILL NOT BE LIABLE FOR ANY LOST PROFITS, LOST SAVINGS, INCIDENTAL, SPECIAL, OR INDIRECT DAMAGES OR OTHER ECONOMIC CONSEQUENTIAL DAMAGES, EVEN IF IBM, OR ITS AUTHORIZED SUPPLIER, HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. SOME JURISDICTIONS DO NOT ALLOW THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THE ABOVE LIMITATION OR EXCLUSION MAY NOT APPLY TO YOU.

IBM will not be liable for 1) loss of, or damage to, your records or data or 2) any damages claimed by you based on any third party claim.

This limitation also applies to any developer of a Program supplied to IBM. IBM's and the developer's limitations of liability are not cumulative.

4. General

You may terminate your license at any time. IBM may terminate your license if you fail to comply with the terms of this Agreement. In either event, you must destroy or disable all your copies of the Program.

You agree to pay the applicable license fee for the Program. You are also responsible for payment of any taxes, including personal property taxes, resulting from this Agreement.

You agree to comply with all applicable export laws and regulations.

Neither party may bring a legal action under this Agreement more than two years after the cause of action arose.

This Agreement is governed by the laws of the country in which you acquired the Program except that:

- I. if you acquired the Program in the United States, this Agreement is governed by the laws of the State of New York; and
- II. if you acquired the Program in Canada, this Agreement is governed by the laws of the Province of Ontario.
