

Introduction

Siege is a simple game which can be played by one or two players. The basic characters of the game are Mr. Hud and Mr. Oreopoulos. The first one is the castle defender against the second one. Mr. Hud try to prevent with his catapult Mr. Oreopoulos from constructing a pile of sacks, which drop in the water next to the wall, in order to create a dry place to put on the dynamite. Be carefull, the only vulnerable part of Mr. Oreopoulos body is his **head**.

Instructions

In one player mode you can control only Mr. Oreopoulos with **arrow** keys. In two player mode, one of the players control the catapult of Mr. Hud with the **ctrl** key. In the bottom of the games screen there are indexes about the catapult power, catapult balls and the sacks which remain to complete the pile.

Game information

This game is freeware and you may distribute it to your friends free. If you want to help me to improve the games graphics and sounds, please send me a mail-check of 5 U.S. dollars in the following address:
