 - or
 - click TO PRINTER to print scorecard on Windows printer

10 OPTIONS menu

DECLARE: end current innings and proceed

NEW TEST: end current test and select new teams

EXIT: you're outta here

RSC TEST CRICKET 2.0 ENHANCEMENTS

New features:

1. Bowler Choice on new overs

Player now must choose bowler when playing in ball-by-ball mode.

Computer will continue to choose bowler in quick wicket mode EXCEPT at beginning of innings.

2. Tactics for batting team (Options / Tactics on menu bar)

Batting Team may select attacking, normal or defensive styles

Attacking: Out more often, but higher run rate

Defensive: Less outs but lower run rate

Remember these are general statements - a defensive tactic will not necessarily prevent sudden loss of wicket!

Tactics reset to normal at beginning of innings

3. Quick Wicket mode stops after ten overs if no wicket has fallen

Still a "quick " game but allows intervention opportunities more often.

You can change tactics, declare, choose next bowler at these points.

You can also freely switch between ball-by-ball and quick wicket mode

4 Weather interruptions

Play may be stopped for Rain or Bad Light

Play resumes next day.

In Quick Wicket mode, computer will automatically continue play next day until fall of wicket

5. Set length of match

6. Batsman and Bowler Avgs by clicking on names

7. Two more teams

I have added two more teams to the shareware game

Also I have changed the mix of teams slightly

I think eight teams is better for playing tournaments - no byes necessary.

Also, I wanted to put a decent English squad in the game.

8. Lots of windows niceties - in case you accidently click the wrong place

RSC TEST CRICKET GENERAL NOTES

1. 90 overs per day
2. Statistics are based on real-life Test averages.
I have tried to choose representative Test performances as possible
3. All stats were extracted from the CricInfo Server on the internet.
My greatest thanks to the dedicated staff and contributors at CricInfo - without you this game would not exist.
4. My apologies for any misspellings of player names or statistical errors.
Let me know so I can correct.
5. Email mail your kudos, criticisms and comments to

BRETT@EPIX.NET

or snail-mail to

BRETT FREEDMAN
PO BOX 3332
CAMP HILL PA 17011 USA

or call me at 717-761-3512

I really would like to hear from you - all email will be answered!

Complete 26-team game is available for \$20 (US funds)
If you MUST pay in your currency, add \$5 US to your payment!

Registered copy will be sent on 3.5 HD floppy OR I will email UUENCODED
Please specify your preference!!!

6. My goal was to create a statistically realistic Visual Basic Windows cricket simulation which would allow matchups between Test squads of different eras. How did I do?
7. If this game is well-received, I will produce a new version with more teams and features based on your input. (Test Averages and batting orders very much appreciated)
8. Anybody interested in a English County Cricket version of this game?
8. ***ENJOY ***

MY THANKS TO:

everyone at rec.sport.cricket, #cricket and CricInfo (information and inspiration)
David (my brother), Johanne, Rebekka and Erika (for inviting me to London)
Pam G. (for getting me the good deal on VB)
John at Windsor Park Books (business sense)
my cat Bubba (unconditional love)

my internet friends who beta-tested and contributed suggestions
and especially all the great cricket fans and shareware supporters
who register RSC TEST CRICKET :-)
