

# ICU

## INSTRUCTIONS

ICU is our first product. We decided to release it as shareware to see if it is a viable alternative to the hassles and high costs of retail distribution and sales. If it proves worthwhile we have other larger scale products in the works that will also be distributed as shareware.

The registration fee for ICU is only \$4. For this fee you will receive an explanation of how to make the eyes remember their size and position from the last time it ran and how to get rid of the About box that comes up when it first runs. You will also be added to our mailing list for future product notifications. To register, just print and fill out the third page of this file and send it along with the registration fee to the address listed at the bottom of the form.

ICU works best if it is in a corner of the desktop that is rarely used. Due to the fact that it is not rectangular, if the ICU eyes are painted on top of another window, the other window considers the rectangle surrounding the eyes to be invalid and doesn't bother to update it. This causes the eyes to pick up garbage around them that is leftover from the underlying window. We feel however that the unique look that this gives when not over another window is worth the minor inconvenience.

The following files are included with ICU V1.0.

ICU.EXE	This is the program itself.
ICU.WRI	This is the file you are currently reading.
BWCC.DLL	This is the custom controls library used in the "About" and "Instruction" dialog boxes. If you have other programs that use this file, you only need one copy of it on your system. It may either be in the directory that ICU.EXE is in or it can be in the \windows\system directory.

We are confident that you will like this program well enough to register, however if you do not, we would love to know why. Any criticism or suggestions are most welcome and we hope you'll send us this form even if you don't wish to register. Or if you prefer you may send E-Mail on Compuserve at 73047,253.

## ICU LEGAL LINGO

This product may be freely distributed with the following minor limitations. No charge may be made for further distribution of ICU, except for charges covering the cost of distribution. Permission is hereby granted for any person in charge of maintaining online services to offer a copy of ICU for downloading, as long as no charge, other than normal charges for system access, are made, and as long as the originally distributed files are kept together and offered in unmodified form.

The author hereby disclaims all warranties relating to this product, whether express or implied, including without limitation any implied warranties of merchantability or fitness for a particular purpose. The author cannot and will not be liable for any special, incidental, consequential, indirect or similar damages due to loss of data or any other reason, even if the author or an authorized agent has been advised of the possibility of such damages. In no event shall the liability for any damages ever exceed the price paid for the license to use software, regardless of the form and/or extent of the claim. The user of this program bears all risk as to the quality and performance of the software.
