

Discover Interactive Multimedia with imedia

The imedia Advantage

We develop multimedia applications for corporations using the best PC-based multimedia tools and resources available. We coordinate all phases of the multimedia project from creation and prototype to development and production.

We specialize in developing multimedia applications for

- *Interactive catalogs/brochures*
- *Interactive presentations*
- *Product simulations/demonstrations*
- *Trade show presentations*
- *Corporate training and education*
- *Internet WWW pages*
- *Specialized 3D computer animation*

We output our work to CD-ROM, diskette(s) or video tape.

CD-ROM Pre-Mastering

- *Back-up/store PC (DOS/WIN) data*
- *Save valuable disk space*
- *Large data storage capacity (up to 650 MB per CD-ROM)*
- *Fast turnaround . . . usually the next business day*

CD-ROM Replication

- *As low as .78 cents per CD-ROM*
- *1-3, 5, 7 or 14 day service*
- *Insert printing and packaging also available*
- *Call for quote and special offers*
