

Welcome to Cliptures!

Congratulations on your purchase of Cliptures, the finest quality electronic clip art on the planet! Here you will find a printable, color image index for this Cliptures volume, as well as help files for using Cliptures with both Windows and Macintosh computers.

This software is designed to make it easy for you to print a color image index for this volume. Cliptures indexes are formatted to print on 8 1/2" x 11 paper so you can store them in a standard 3 ring notebook. This way, as your Cliptures library grows, you can store many indexes in a single notebook!

Along the left side of the window are bookmark links to the help files and the image index. You can print out the image index or help pages by going to that section and then selecting the Print command from the File menu.

The image index uses only low resolution versions of the Cliptures graphics. We have done this so the pages will print quickly. It is designed to be used as a printed reference and will look much better printed than on your monitor. Also, keep in mind, that because they are only low resolution versions, they do not reflect the true quality of the actual graphics included in this Cliptures volume.

Important Copyright Restrictions

The Cliptures index is strictly for the purpose of providing you, as the licensee of this Cliptures volume, with a printable image index. You are not allowed, and it is illegal, to distribute (give or sell) copies of this index, or, any portion of it to anyone else. ©1999 Dream Maker Software - All rights reserved.
