

XFigure Registration

Register XFigure *now!*

If you keep sneaking back to Xfigure for another game, you probably ought to register. The price for registration is £10 sterling and entitles you to a clean conscience and a nice registration certificate containing details to remove the 'unregistered' texts.

We don't supply a disk with your registration (that's one reason why it's cheap!). If you need a disk, we'll send you the current version of XFigure on a disk containing other quality Windows shareware by us for £5 extra including postage & packing. Please ensure you indicate the disk format on the order! All the documentation is on the disk and we prefer not to waste paper, so we don't supply a printed manual either.

Just print out the form below, fill in the details and fax it to SP Services on (01703) 322416 (that's +44 1703 322416 if you're not in Britain). If you've no fax, either ring 01703 550037 and talk nicely to the answering machine, or post the form to:

SP Services
PO Box 456
Southampton,
United Kingdom
SO17 1LP

You'll have to do this if you don't want to pay by credit card, too, but please note we prefer payment in pounds sterling (*non-UK orders please see below*). We also accept orders by electronic mail to **sphipp@cix.compulink.co.uk** or on **CompuServe** to **100016,1625**; you will get an e-mail reply as soon as the order is received, followed by a registration certificate in the post. *Please supply all the same details.*

Creepy Disclaimer (the small print in big letters)

Don't forget that there are no warranties associated with this software beyond saying that it will do what it says in the documentation (apart from your legal rights, of course). If you manage to mess up your installation and think it has something to do with XFigure, we're sorry but it only cost £10, didn't it. Now for BIG money we'll give you a warranty. However, *registered users* may e-mail sphipp@cix.compulink.co.uk or CIS 100016,1625 or fax +44-1703-322416 and we will do our best to satisfy your requests. All prices are subject to sudden, unexpected change, and all errors are regrettable, human and apologised for. Once you have a licence (or a license if you prefer), you can use our software 'like a book' as they say - do what you wish with it as long as only one person can ever use the licensed copy at any one time. We only sell the permission to use, not the software. (We can translate this section into legalese if you wish!)

US and other non-UK Users!

Please **do** register! It's really easy; you simply send in your credit card details & address, we debit your credit card in pounds sterling, and the credit card company do all the hard stuff about currency conversion. As a special incentive, there are no extra shipping costs for non-UK orders! If you really cannot avoid paying in a currency other than pounds sterling, please add the equivalent of £6 sterling to the price you send to cover part of our currency exchange costs.

We apologise if this seems expensive to US customers, but the price is a fair one for Europe and is distorted by exchange rates and market prices to seem expensive in the US. At least we're not charging you for shipping! And the program does try to adapt itself to US spellings etc. which is more than most US software does for us.

Just for the record, XFigure is © Copyright 1993-5, Alan Saul; this chatty registration form is entirely public domain. It's designed for A4 paper but should print OK on 8½" x 11" letter.

XFIGURE REGISTRATION FORM

(please deface as required)

Send to: SP Services, PO Box 456, Southampton, SO17 1LP, UK or Fax to 01703 322416

- Please register ____ copies of XFigure for £10 each
- Please send me an SPS Product Disk (including latest XFigure) on 3½"/5¼" DD/HD disk for £5 more (*please specify disk size & density*).

- I need a receipt. - Please invoice my company (£5 extra/month due)
- I want a Shareware Selection disk (£10)

I authorise you to debit my credit card (details below) with the total sum identified above; I understand that I will receive one of your very nice registration certificates, appropriate registration number(s) and the undying gratitude of Alan Saul in return for this sum (*no disk or manual unless ordered*). I got the software from _____ and have version 1.50.
