Introduction

Welcome to the 2001 Bachmann Branchline Catalogue.

The start of the 21st Century has already shown itself to be an exciting time for the British modeller. Our new releases in the year 2000 have once again set new standards for ingenuity of design and decoration. To quote typical examples, the eagerly awaited Class 08 diesel shunter has proved more popular than anyone could have imagined. The British Railways Mark I coaches have proven themselves to be an incredible success story which will be expanded through the year, with new variants being introduced, plus Type B4 bogies to accompany them.

The range for 2001 will be just as inspiring. The JGA Hoppers, available in the Spring, are evidence of our commitment to developing high quality rolling stock just as much as locomotives - the images shown on page 38 speak for themselves. Comment received from followers of 'heritage' diesels already indicates that our Class 25 'Rat' is destined to become another popular choice of prototype, and equally so, the Class 24 following it. Both types will be made available by being made 'DCC ready' at the manufacturing stage.

New announcements in the steam-power category include the elegant Eastern Region Class A1 Pacific, plus the versatile mixed traffic locomotive introduced by BR as the Standard Class 5MT, available with high-sided tender initially.

For modellers of the current modern scene, two 'state of the art' DMU classes make their appearance, the Class 170 Turbostar extended to include the intermediate car, and Virgin Trains' futuristic Class 220 Voyager, in its non-tilting four-car variant. All these releases incorporate 'Blue Riband' standards.

Bachmann's continued success relies not only on new products - the popular Ivatt tank engine is projected to receive further production runs, with two new running numbers. The 'Peak' will be upgraded to feature Class 45 & 46, this time with improved buffer beam details and nose ends not previously available. Our freight stock range will also be expanded by introducing a highly accurate, all-new standard BR 20 ton Brake Van, which will incorporate different detail parts for greater authenticity.

Fans of Bachmann products are now able to keep up to date through the Bachmann Collectors Club, which has already seen over one thousand members enrol since its re-launch in July of last year! Our web site has doubled its number of visits over previous years, and now supplies readers with information in much greater depth. For the first time, Bachmann catalogues will be made available on CD-ROM and will feature the entire Bachmann Industries portfolio of hobby products for convenient reference.

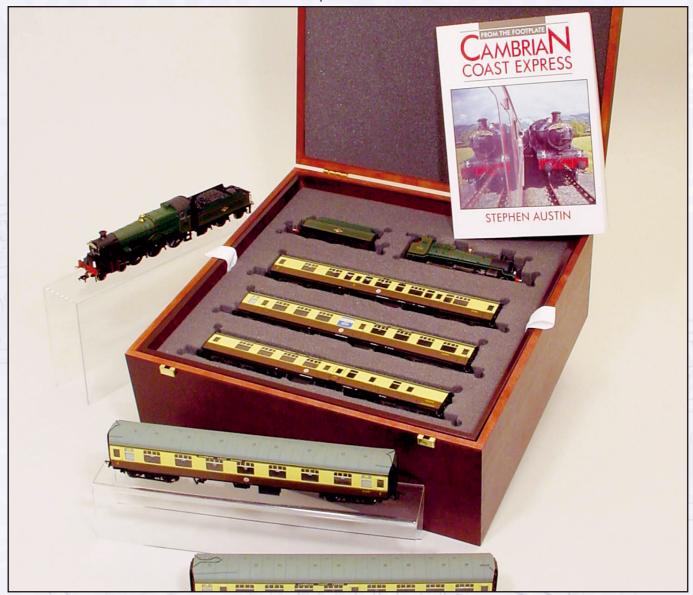

Since their conception over ten years ago, Bachmann 00 models have broken new ground for quality, detail and choice of prototypes. Other model railway manufacturers have become aware of this, and are now endeavouring to emulate the characteristics that have made Bachmann Branchline the first choice for so many 00 modellers, both here and abroad. This investment and continual improvement means that the 00 scale collectors have never had such an incredible opportunity to enjoy their hobby.

The 'Cambrian Coast Express'

- Special edition Manor/43xx locomotives
- Exclusive 'Autobuffet' Mk1 coach
- Highly detailed named express board
- © Coach destination boards included
- Limited to certificated run of 1000 only
- Ian Allan book on 'CCE' by Stephen Austin

The collectors set consists of 7828 'Odney Manor' & Class 43xx 5358 locomotives in lined green with six chocolate/cream Mk1 coaches.

31-2000

The 'Cambrian Coast Express' Collectors set

Class 56xx

- Heavy diecast chassis
- Prototypical operating radial truck
- Copper capped chimney

- Excellent load-hauling capability
- Improved cab roof profile
- Ideal for use with P.O. coal wagons

32-075

Class 56xx Tank 5667 GWR green

32-076

Class 56xx Tank 6676 Great Western green

08 Shunter

- Four new liveries introduced
- Choice of cab styles
- Available with/without ladders
- Compressor box now included
- Easily converted to accept DCC
- Flywheel drive 5 pole motor

32-101A

08 Diesel Shunter D3586 BR Green with wasp stripes

32-102A

08 Diesel Shunter 08 762 BR blue

32-103

08 Diesel Shunter 08 921 'EWS'

32-104 32-100

(also available) 08 Diesel Shunter 13365 BR plain green

- New style 4000 gallon tender
- Close coupling mechanism
- Correct SR pattern buffers

- Diecast running plate
- AWS equipment on late BR versions
- The very first Blue Riband locomotive

32-154

N Class 31843 BR lined black with 4MT chimney

32-155

N Class 1854 Southern Railway Malachite green

N Class 31862 BR black with early emblem and slope sided tender

8750

- Revised GWR version, new running number
- Fine grille bars on cab rear windows
- Daylight under tanks/boiler

- External brake rodding to chassis
- Metal pole rests on bunker
- Correct pattern tank fillers

32-200A

8750 Pannier tank 6752 GWR green

32-201

8750 Pannier tank 8763 BR lined black

32-202

8750 Pannier tank 4672 BR black late crest

ND Austerity

- Superb freight hauling capability
- Removable 'coal' load in tender
- Westinghouse pump on LNER version
- Authentic weathered finish
- WR version with authentic details
- Correct pattern driving wheels

32-253

WD Austerity 90312 BR black early emblem BR WR

32-254

Class 07/ WD Austerity 3085 LNER black

32-256

WD Austerity 90566 BR black late crest
