

Business

ClipDragon 1.2

Convert text documents, pictures, sound files and icon folders into customized clipping files, and vice versa.

(Application by LnA Concepts) 7.5+

EasyAccount 2.2

Manage, calculate and record your financial transactions. Create bar and pie graphs.

(Application by E. de Leur)

GoMac 1.4

This Program Bar, Start Menu and Keyboard Switcher has Start Menu icons, OS/8 enhancements, and improved drag 'n drop!

(Application by Proteron, L.L.C.)

iSearch 1.1.1

Search folders, disks and CDs for text, then open and display a section of text or open the entire file.

(Application by Script Software)

LinkPad 1.0

Drag 'n drop Web links to the LinkPad window, and then back into Netscape to navigate the Web.

(Application by Panic)

Neatnik 2.0.2

Set multiple folder positions, sizes and view options simultaneously.

(Application by Karl Bunker)

Net-Print 8.0

Save and print selected text blocks, instead of entire documents.

(Application by John Moe)

Orniwell 3.1

View large text files, and navigate inside them by using keywords.

(Application by Roberto Panetta)

PRAMInspector 1.0

Detect PRAM problems by seeing exactly what is stored in your PRAM.

(Application by Alexandre Trottier)

SyJetWrapper 1.2

Scan SyJet disks, create lists of the folders and print tables of contents for the disk sleeves.

(Application by John Clark)

Requirements

7.5+ = System Software 7.5 or higher
