

# Desktop Publishing

## Bright Ideas® Images

Choose from color TIFF clip art images, including a pool table, tropical fish and coin toss.

(Images by Bright Ideas®)

## Brigida Font

This ornate, unusual font is based on ancient Irish calligraphy.

(Font by Scriptorium Font Library)

## Conbelin

Use these black-and-white TIFF images of knotwork patterns inspired by the Great Wheel Cross of Conbelin as decorative elements.

(Images by Feòrag NicBhrìde)

## Desktop Consoles Volume 2

These JPEG backgrounds, in five color schemes, divide your desktop into working and icon-display areas.

(Backgrounds by Layne Karkruff)

## JPEGger 1.1

Create stand-alone images. Send the images to computers without graphic viewing programs.

(Application by Tommy Widenflycht)

## MetroGnome

Customize this electronic metronome with clicks, tings, blinks or a voice counting off the beat.

(Application by Nicholas Buchdahl)

## Photo Index 1.0

Make thumbnail indexes of JPEGs and PICTs by dropping files onto the Photo Index icon. QT

(Application by Tom Rinehart)

## QuickNailer 1.4.2

Generate multiple indexed Web sites with frames, tab-delimited data files, and divided, WYSIWYG contact-sheets. QT 2.5+

(Application by Stephen Baber)

## RGB Calculator II

Create and compare RGB colors, and then translate them to Web color

values.

(Application by Warren Furman)

TableCloths 3.0

Drag 'n drop Scottish tartan desktop patterns, including Black Watch and MacDonald. 7.5+

(Patterns by Mark Fiske)

Zoomorphica Font

The bodies and faces of animals, woodland spirits and other mythical beings form fun display initials.

(Font by Scriptorium Font Library)

Requirements

7.5+= System 7.5 or higher, QT 2.5+ = QuickTime version 2.5 or higher
