Education

Digital Wipeout
See how many numbers you can create by adding, subtracting, multiplying and dividing any of the three numbers you roll on dice.
(Application by John Mauro)

Easy Tester
Test students' reading comprehension with short stories and quizzes. Make your own quizzes, too. HC
(Application by Paul Martel)

Factory 1.3
Logic and coordination get a workout as you run the conveyor belts and other features of a virtual factory.
(Application by RoundHouse Software)

Food Nutrition Knowledge Matrix
Check out the minerals, vitamins, lipids and other nutrition features of common foods. HC
(Application by HyperInfo Canada Inc.)

FretPet 1.0.1
Build chords from scales, create and save chord progressions and sequences. Generate chord harmonies and more.
(Application by Scott Lahteine)

GraphIt 1.1
Type a single variable algebraic expression, set the ranges for x and y, and click the graph button. Graphing has never been so easy. HC
(Application by Peter M. Brigham)

Lines&Kinetics
Enter x and y data to get means, standard deviations, graphs and "best fit" data straight lines. HC
(Application by M.G. Claros)

Master Spell 3.1.1
Practice spelling words your computer says, and record score history, trouble words and more.
(Application by Jay Lichtenauer)

Math Dittos 2: Subtraction
Make customized subtraction drills and exercise sheets. PDF

(Document by Steven Wood)

Square Wars Plus 1.1.0
Players take turns drawing horizontal and vertical lines between dots.
Complete a square, and it is yours. Get the most squares, and you win.
(Application by Steve Goldberg)

Requirements
HC=HyperCard, PDF=Adobe Acrobat Reader
