

walkby.wad is my first wad ever. It is a very basic wad and you may modify it as long as you include this document with it. If you have any comments, suggestions, requests, or a modified version of this wad please e-mail them to me at Bail987@aol.com.

Thank you,
Justin Bailey

P.S. to run copy this wad to your Heretic directory and type "heretic -file walkby.wad -warp 1 1" without quotations.
