Thank you for purchasing the PhotoDisc Sampler Version 6.3. It is our goal to deliver the finest photography available anywhere to our valued customers.

Sampler 6.3 is a 2-Disc set. One disc is entitled, "Sampler 6.3a." It includes images from Volumes 1-24 (Over 7700 images). The second disc is entitled, "Sampler 6.3b and includes Signature Series 1-12 (1200 images), Object Series 1-12 (Over 1400 images) and 25 High Resolution images.

Please refer to the QUICKSTART directory for helpful information on getting you started.

Included on this disc is an Adobe Acrobat file titled COOLSTUF.PDF which lists in detail, PhotoDisc products, new releases and special pricing! Be sure to take a look.

This disc includes low resolution RGB JPEG-COMPRESSED TIFF images from PhotoDisc Volumes 1-24 as well as a comprehensive image browsing utility from IMAGE PALS™ called Browser™. We have created this disc to show you first-hand the quality and breadth of our image library. After browsing through our image collection, if you are interested in obtaining a particular photograph, you may order the specific product it appears on. The purchase price of each respective product includes usage rights to all the images on that particular disc with NO ADDITIONAL FEES!

A TOUR OF SAMPLER 6.3a

*NOTE: New PhotoDisc products are released every month. Call PhotoDisc Customer Service at 1 800 528 3472 for product release date information.

BROWSER2 Directory - This directory contains the IMAGE PALS browsing utility that allows you to preview all the images from Volumes 1-24, Signature Series 1-12 and Object Series 1-12. Run INSTALL.EXE in the root directory of the CD-ROM to install the Browser program to your hard drive. You may run the program directly from the CD-ROM by running BROWSER.EXE found in the :BROWSER2 directory. Browser allows you to view the PhotoDisc images on your computer screen and search for specific criteria based on linked keyword files. For instructions on how to use IMAGE PALS Browser, please refer to the on-line help menu within the program.

ULEAD2 Directory - This directory contains resource files to be used by the Browser program and can be ignored by the end user.

ALBUMS Directory - This directory contains the IMAGE PALS BROWSER "Album" files for Volumes 1-24, as well as the Signature Series and Object Series. This album is called "MASTER" and includes over 10,400 images. A HI RES album is also available to display the high resolution images include in this Sampler (6.3b).

INFO Directory - This directory includes:

GLOSSARY.WRI - This manual is a helpful reference for understanding some of the words and terms used on the PhotoDisc CD -ROM.

OUTPUT.WRI - This manual is a reference document for outputting images found on the PhotoDisc Sampler.

Q&A.WRI - This manual lists commonly asked questions and answers.

MICROSOFT NETWORK (MSN) - The shortcut (SHORTCUT.LNK) included in the INFO directory will take you directly to the PhotoDisc forum on the Microsoft Network. If you have Windows 95 you have the ability to become a member of the Microsoft Network. By double clicking this shortcut you will launch directly into our forum for information on latest releases, downloading of sample images and purchases of our discs as well as individual images. For further information on the Microsoft Network, dial 206 882 8080.

ON LINE Folder - Contains a PDF file with the latest information on accessing PhotoDisc products on line. These include our Homepage (<http://www.photodisc.com>) on the World Wide Web and The Microsoft Network. We are adding more and more images every week, so take a look at what's new!

EUROPE Folder - Contains brief information on our new office in England.

TEXT Folder - This folder includes three text-only documents for Volumes, Signature Series and Object Series. Information includes Filename, Title, Credits, Information, Keywords, etc. associated with the PhotoDisc images in Sampler 6.3.

CONCLUSION

If there is anything else we can do to make our product more useful to you, we want to know. If for any reason you are not satisfied with our product, you may return it within thirty days of

purchase for a full refund.

Please carefully review our end-user license agreement to ensure that your intended use complies with our usage guidelines. If you have any particular questions about usage please do not hesitate to call us for clarification.

We want our customers to USE our volume discs as easily and as often as possible, yet we need to protect the rights of our photographers.

Thank you for choosing PhotoDisc-The Leader in Digital Stock Photography.
