1.1 MPEG Anims on Aminet 15

The MPEG animations on Aminet CD 15

MPEG is a lossy video compression standard. Lossy means that a film or anim doesn't look the same after being compressed and decompressed using MPEG. However the losses are usually acceptable, and enable very high compression factors. Decompression is very CPU intensive, so you may want to view only the lower resolution animations on slower Amigas.

There are 229 MPEG animations on this CD. You can either view them

by subject
or
by resolution
.

You may want to select a different MPEG player or install one of the tools below:
