### 1.2 Introduction

What is it for?

This review has been made primarily for my own use to help me to select an appropriate module easily without search. This list might be useful for some people so I made it available for the public. I keep the list up to date and you can send me suggestions and new information - the list certainly has mistakes. However I don't want any comments on my taste of music. When the time passes, the mood changes so the line of my criticism may not have always been constant thus I have judged every module at least twice.

## 1.3 Format

The list entries contain the following information:

Name Type Points Length Module Name/Author ANS Flag

-----  
100yard A \* \* 1/2 104666 100YardDash/Dr.AweSome

Name - The file name in my BBS.

Type - The code for the type of the music:

A - Easy, relaxing

B - Rattle and hum

C - Lot of samples

D - Fast strumming

E - Vague growling

F - A simple piece

G - Mod collection

CD - Brisk music made from lots of samples

AC - Calm but might swipe your feet off

BD - Hell of a booming, trash etc.

AF - Easy and simple

AD - Easy but swift

BF - Simple booming

Points - The point scale is from 1.5 to 3.0 represented as \* 1/2

to \* \* \*. Two and a half or more means that you might listen it again.

Length - Length of the module. Not every entry contains the length, but approximation is given. **These especially need updating.**

Module name/author - The name and author of the module.

ANS Flag - Status of the module in my BBS:

D = Destroyed - don't upload again

S = Scheduled for destruction

PP = Compressed using PowerPacker

## 1.4 Distribution

Distribution & Copyrights

Copyright by Author (Janne Saarme).

You can spread this as long as all the files (unmodified!) are included in this archive and no money is involved in the process.
