

Many thanks for taking the time to download this Rebel Riffs material.

The song contained within the zip file is called **Do The Hurtle !**.

So called because it's rare for us to work at 140 bpm. No fast lane for us lazy ^(&*^%..... Turned into a blistering track as it happens though...*

For more details on obtaining tapes of RR material, email us at any of the addresses shown. Also as usual, the track is somewhere in the region of 5-7 mins long, which is partly the reason for it's HUGE file size. Many apologies for these extreme sizes but both the material and the samples take up lots of space - **you will see why when you play the file...**

Who are REBEL RIFFS ?

An unusual entity which combines the talents of a top flight record producer, a seasoned arranger, vulgar and ill-mannered musicians of all shapes and sizes and as many samples and patches as we can lay our hands on ! We have several addresses dotted around the online world:

Internet : rebriifr@netcomuk.co.uk
Compuserve : clan_gilmore@compuserve.com
AOL : Rebriifr@aol.com
WWW : http://ourworld.compuserve.com/homepages/clan_gilmore/rebelrif.htm

We'd be delighted to hear from anyone interested in our material, which you will find dotted all over the place. Anyone interested in hearing further RR material, drop us a line and introduce yourself...

The REBEL RIFFS Music

Mostly made these days on Fast Tracker II in XM format, although earlier tracks were released in a GUS only 'demo' type format but we switched in order for more folks to hear the Rebs in action. A full discography can be found at the end of this file. All XM's are tested on a variety of soundcards (best on a GUS or an AWE32 obviously :-)) and players including Cubic Player (the best of the best !) for DOS and Mod4Win for Windoze (the best for Windoze but where's the Windows tracker ??).

The Samples

Being the aural magpies we are, the samples we use come from everywhere (but special thanks to

Sound & Vision BBS, SunSite Europe for their extensive patch libraries). Patches used in the very latest tracks may also come from the excellent SoundWave collection from Chad Gould (cgould@gate.net) and from the ever-expanding collection of great sample CD's from Time and Space (<http://www.timespace.com>) and the utterly superb 'Cube' samples from Best Service (<http://www.bestervice.de/>). Other than that, the main vocal and fx samples come from the following Internet Newsgroups: alt.binaries.sounds.movies, alt.binaries.sounds.misc, alt.binaries.sounds.cartoons, alt.binaries.sounds.tv etc. You will also find Rebel Riffs themselves are active on most of the 'binary' and 'mod' type newsgroups (ie alt.binaries.sounds.mods etc).

Happy Listening from the REBEL RIFFS crew !!!
