Thanks to...

PLEASE E-Mail me if you use this program... It doesn't take any time and it encourages me to continue with this and other projects...

## 1.2 Introduction

Introduction:

HereticPortal is a GUI for Heretic (Amiga ports) It has many nice features, such as:

- Good looking MUI interface. (Using MUIRexx!)
- It's small.
- It's very easy to use.

## 1.3 Disclaimer

Disclaimer:

You are using this program at your own risk. I'm NOT responsible for anything this program might do. (Although it shouldn't do any damage!)

## 1.4 Copyright

Copyright:

HereticPortal is ©Copyright Lorens Johansson 1999.

This program is E-Mailware... If you use it then please send me an E-Mail so I can see how many people who uses this program... That's all I ask.

## 1.5 Requirements

Requirements:

- AmigaOS 2.0+ (Since ARexx was introduced in 2.0)
- You must have MUIRexx installed and a MUIRexx assign to it.

## 1.6 How to install

How to install:

Copy the program and the guide file to wherever you want.  
Be sure that you have MUIRexx: assigned to where MUIRexx is.  
That's it!

---

## 1.7 How to use

How to use:

Please E-Mail me if you have any trouble with this program, and I'll do my best to help you!

---

---

### T H E M E N U

---

---

- \* HereticPortal
  - About MUI:
    - Shows the About MUI window.
  - Quit:
    - Quits HereticPortal.
- \* Settings
  - MUI Settings...:
    - Brings up the MUI Settings window.
  - Load Settings:
    - Loads the settings.
  - Save Settings:
    - Saves the settings.

---

### T H E G U I

---

---

- \* Heretic (68k&PPC):
  - \* Main:
    - \* Parameters:
      - Read the Heretic Guide for more info on these or hold the mouse over them and read the bubble help.
    - \* Heretic Path:
      - The Heretic executable (With path).
  - \* Settings:
    - \* Load Heretic.cfg:
      - Loads the Heretic.cfg.
    - \* Save Heretic.cfg:
      - Saves the Heretic.cfg.
    - \* Misc:
      - Self explainable.
    - \* Keys:
      - Self explainable.
    - \* ChatMacros:
      - Self explainable.
- \* AHeretic (68k):
  - \* Main:
    - \* AHeretic Path:
      - The AHeretic executable (With path).
  - \* Settings:
    - \* Load Heretic.cfg:
      - Loads the Heretic.cfg.
    - \* Save Heretic.cfg:
      - Saves the Heretic.cfg.

```
    Saves the Heretic.cfg.
* Misc:
  Self explainable.
* Keys:
  Self explainable.
* ChatMacros:
  Self explainable.

* AmiHeretic (68k&PPC):
* Main:
  * Parameters:
    Read the Heretic Guide for more info on these or hold the mouse
    over them and read the bubble help.
  * AmiHeretic Path:
    The AmiHeretic executable (With path).
* Settings:
  * Load Heretic.cfg:
    Loads the Heretic.cfg.
  * Save Heretic.cfg:
    Saves the Heretic.cfg.
  * Misc:
    Self explainable.
  * Keys:
    Self explainable.
  * ChatMacros:
    Self explainable.

* Information:
* About:
  Shows info about HereticPortal.
* Cheats:
  Shows all cheat I have found for Heretic.
* Credits:
  People I like to thank.

* Other:
* Which Port:
  Select the port that you want to play.
* Buffers:
  Select how many buffers you want to have on the drive. Recommended
  1000.
* Stack:
  Select the stack value.
* Run Heretic:
  Starts the selected Heretic port.
* Quit HereticPortal:
  Quits HereticPortal.
```

## 1.8 History

History:

- 0.1: (1999-01-30) (19905 bytes)
    - Made the GUI.
    - Added the menus.
-

- Added support for Heretic. You can also choose the parameters for it.
  - You can choose the buffers for the drive Heretic lies on.
  - Added some cheats.
  - Wrote the basics in the Guide.
- 0.2: (1999-02-01) (23143 bytes)
- Added support for AHeretic and AmiHeretic, not fully finished yet.
  - You can Load/Save the Heretic.cfg for Heretic. (Not the keys yet!)
  - Added more cheats.
  - Finished the Guide.
- 0.3: (1999-02-03) (24490 bytes)
- You can now Load/Save the keys parts of Heretic.cfg and the Chat Macros for Heretic.
- 0.4: (1999-02-04) (39793 bytes)
- You can now Load/Save the config for AHeretic/AmiHeretic too...
  - Added the new parameters for Heretic v0.6.
- 0.5: (1999-02-08) (43719 bytes)
- Added the new parameters for AmiHeretic v2.0.
  - You can now choose the stack value.
- 0.6: (1999-02-10) (32299 bytes)
- Fixed a small bug.
  - Optimized it for faster loading and usage.
- 0.7: (1999-02-16) (34359 bytes)
- Added the `-bus`, `-lowdetail`, `-turbo` and `-playdemo` parameters for Heretic v0.7 and v0.8.
- 0.8: (1999-02-16) (37306 bytes)
- Fixed a STUPID misspelling, that caused 0.7 not to find the heretic.cfg!
  - Added the `-lbhack` and `-c2p` parameters for Heretic v0.89.
  - Added the Additional string gadget for all ports.
  - Added some default settings if prefs file doesn't exist.
- 0.9: (1999-02-22) (40488 bytes)
- You can now edit everything in Heretic.cfg for all ports, except the `snd_*`.
  - Added `-ambient` parameter for AmiHeretic.
  - Added `use_fps` to the edit heretic.cfg for AmiHeretic.
- 1.0: (1999-02-26) (38731 bytes)
- Removed the `-turbo` parameter for Heretic (0.935).
  - Added the `-scaledgui` and `-timedemo` parameters for Heretic (0.935).
  - Made the Load/Save heretic.cfg Keys section faster and easier for me to change.

## 1.9 To Do List

To Do List:

- Optimize it even more.
  - Add support for more ports (If there will be any).
-

- Much much more...
- ~...
- Please help me to fill out this list.

## 1.10 Bugs

Bugs:

- ~IF you should happen to find a bug then  
mail me  
as soon as  
possible, please include what computer you have and which version of  
the program and the libraries you have.
