1.29 Letter selection help

You are looking at the alphabetically sorted version of the ↔
 conents listing
 of Aminet. Pick a letter by clicking on it, or click 012 for the files that
 don't begin with a letter. Help on viewing and extracting the files is
 available
 here
 .

You can also do a global search of all Aminet software (including what is
 not on this CD) from this page. The matches will be sorted by name.

Press 'Retrace' to get back.

1.30 File view help

In all the index files in Lists/, you can click the archive name to
 unpack that archive to the directory selected in 'Prefs' (default is RAM:),
 where a new directory will be created for it so you can clean up easily.

The top level 'Index', the 'Readme' and the various Guides are different.
 There, clicking the archive name will:

- View the graphics inside an archive (directory pix/ and gfx/anim/)
- Play the sounds inside an archive (directory mods/ and mus/smpl/)
- Display the texts inside an archive (directory docs/)
- Extract the archive to RAM: (all other directories)

Also, you can click the description of the archive to view the .readme of the same archive. Note that entries with a * in front of the description are not present on this CD (for example in the complete Aminet index). However if you click them anyway, you will be informed what other CDs this file can be found on.

Press 'Retrace' to get back.

1.31 File is not available

1.32 File is on Aminet CD 1

Sorry, but the file you just selected is not on your Aminet CD. You can tell that from the asterisk * in front of the description. It was unavoidable to leave out a majority of the Aminet files since Aminet is 1.5G currently, and only 660M fit on one CD.

However, you can find this file on the Aminet CD 1 (which is sold out).
