1.2 Safe Hex International World Support List History

Safe Hex International World Support List History:

```

-----
v1.4 - Added 1 new BBS in
      England
      .
25-10-94
-----

v1.3 - Added 1 new support BBS in
      Germany
      . And updated some of the
09-10-94 BBS'es in the guide.
-----

v1.2 - Added 1 new support BBS in
      Denmark
      , and 1 in
      England
      .
16-07-94
-----

v1.1 - Added 1 new Support BBS in
      ~Denmark~
      And one in
      ~Sweden~
      .
06-05-94
-----

v1.0 - Off we go !!!!!. This Guide file is the world release of the
17-04-94 new 'SHI BBS Support Guide'. Please spread this file in your
----- country.

v0.5 beta - Added 2 new support BBS in
           ~Canada~
           and
           ~Denmark~
           Welcome to
----- them, please call the boards.

v0.2 beta - Just made the Main Guide file. Don't know if it will ever be

```

----- released.

1.3 About SHI Support BBS Guide (Rev. 01-09-94)

This SHI Support BBS Guide, was made because there sometimes are some FAKE viruskillers around. When you use this guide to find a BBS in your country you can be sure, that there are NO fake viruskillers on that BBS.

SHI Team Denmark, will not take any responsibility for any wrong data in this guide. We will try to keep the BBS data, as right as possible.

This guide is freeware, this means that you can copy it freely. This guide cannot be used for commercial purposes without written permission from the author.

SHI Support BBS.Guide may not be modified in any way. It is not allowed to use the guide in other guide files, without written permission from the author.

The SHI Support BBS.guide may be released in public domain disk libraries, compilation disks, club newsletters or any other kind of disk with the exception of commercially sold Anti-Virus disks.

Special permission is hereby granted to include the guide in Public-Domain collections such as Fred Fish's Amiga Library.

Please help us !!!!. If you find a new virus, do not delete it, upload to a SHI Support BBS, in the area 'UPLOAD VIRUS TO SHI'. And we will send that virus, to all the well known anti-virus programmers.

Regards..... Jan Andersen
SHI Team Denmark

ABOUT SAFE HEX INTERNATIONAL

The organisation "Safe Hex International", SHI, is a grass roots movement

which started in 1990 with Amiga computers. Today they are an organisation with around 650 members who are all more or less involved in SHI's work.

SHI now have 31 virus centres around the world which have free phone help lines, and where anyone can get the latest Public Domain virus killers on disk. These disks have been translated into the relevant languages with all imaginable instructions. Even inexperienced users can immediately understand what to do.

 Denmark

The Danish SHI virus centre launched a new BBS on the 23rd September 1993, and we use StarNet. Here we must give a special thanks to Flemming Lindeblad

(SysOp~at~Formula~II~BBS)
 for his help with setting up the BBS.

SHI will of course give you all the help you need and will support your BBS on our SHI disks, disk magazine and in our documents. For example, we will include your address and phone number in this text file!

If you find an error or a bug in the guide text, please feel free to contact us at the adress above, Thanx !!!!

~How~to~become~an~SHI~Support~BBS~

~SHI~Support~BBS~List~History~

1.6 How to become an SHI Support BBS

If you want to be an SHI Support BBS, you can get our support if ↔
 you can
 agree to these demands:

1... That your BBS is open 24 hours, you have a modem with at least

14.400 baud, and that you only have the newest updates of the best viruskillers. (That means, that you don't have VirusX, ZeroVirus and old killers like that).

2... That you have a lot of text files made by SHI on your board, in a special area for them. You can get all the text files if you call

```
~SHI~MAIN~BBS~  
or you can send money to  
~SHI~Team~Denmark~  
with
```

some disks and then we will fill them with text files and send the back to you. That's where the money you send us will go, to pay the return postage for the disks.

3... That you make a text in your bulletin-menu, with a text that tells the users what the newest updates of the killers are, and the date they were made. And a little text about SHI in your bulletin menu. Also that you mention in your login menu that you run an SHI support BBS.

4... And you make one area where the users can upload new viruses to SHI. And you will send these new virus to SHI Main BBS, as fast as you can.

5... That you will give other SHI Support SysOps free downloads on your board.

If you can agree to these demands, you will get this:

1... Free downloads from the SHI Main BBS and all the other support BBS in the world.

2... You will get your name in this textfile. And you can call
SHI
if
you have trouble with viruses.

3... If you send money and disks to SHI, then we will put the newest updates of the best killers on them, and send them right back to you. The money is to pay for the return postage of the disks.

4... If SHI gets a call from a user, we will tell him to contact the Support BBS in his country.

5... You will get your BBS name in the logoff texts on other Support BBS'es, if they are using this. SHI Main BBS will write your name there.

We hope that you will join us!!

Regards

Lars P. Kristensen & Jan Andersen.

~Yes,~I~would~like~to~be~an~SHI~Support~BBS~

1.7 RegForm

Please fill out this form, and upload it to
~SHI~MAIN~BBS~
and call the
file you upload your board's name (Like this 'SHIBBSDK.LHA'), or you can
send the form by mail to these two addresses:

Jan Andersen.

~Maus~Iserlohn~Kalthof~

~How~to~become~an~SHI~Support~BBS~

1.29 Maus-Iserlohn BBS - Germany

BBS Name..... : Maus Iserlohn-Kalthof.
BBS Software.. : Maus Version 7.94e6.
SysOp..... : Martin Loos.
Modem..... : ZyXEL U-1496E.
Phone Number.. : +49 2371 460879.
HD Space..... : 200 MB.
Open Hours.... : 00.00-3.40 / 6.00-20.45 / 21.30-23.59.
Voice Phone... : +49 2371 46665.
Fido Number... : 2:2444/4504.2.

AmigaNet Number: None.

UseNet-Address : postmaster@mk2.maus.sauerland.de.

Comment:

The Maus Iserlohn-Kalthof BBS is part of the german "MausNet" and is online since May 17, 1994. The MausNet is the fastest private network in Germany, Austria and Switzerland and contains about 110 BBSs).

We are an official support BBS for UMS (The Universal Message System). The SysOps are programmers of UMS (together with Matthias "Filer" Scheler, Martin Horneffer, Stefan "Toolmanager" Becker, Kai "AMOK" Bolay, Stefan "MUI" Stuntz and about 20 other well known Amiga programmers).

The Maus Iserlohn-Kalthof has Gateways to FidoNet, NetMK and UseNet. We have allways a big part of new releases of Amiga-Software, because we have access to AmiNet (The Internet-Servers from which the AmiNet-CD-ROMs are made).

Guests may download any of the soft found on our BBS. There is no Up-/Download-ratio or download-limitation.

The Sysops:

Martin Loos (mattin@mk2.maus.sauerland.de)

Michael Gehrke (manor@mk2.maus.sauerland.de)

Dirk Reinarz (dr@mk2.maus.sauerland.de)
