### OVERVIEW

Montana Solitaire is a single-deck solitaire card game for Windows 3.1 or later.

Montana Solitaire is as easy or as challenging as you want to make it. All 52 cards are dealt face up into 4 rows, then the aces are removed. Your mission is to arrange the cards in order by suit in the fewest number of moves and shuffles.

### INSTALLATION

Copy **MONTANA.EXE**, **MONTANA.HLP**, and **REGISTER.WRI** to the directory of your choice.

Montana Solitaire can optionally use Microsoft's **CARDS.DLL** file. This file is not distributed with the unregistered version of Montana Solitaire. If **CARDS.DLL** is not present on your system, the "Big Cards" option will not be available, but you can still play the game using the "Small Cards" or "Alternate Cards".

When you play Montana Solitaire, game scores and settings will be saved in a file called **MONTANA.INI**, in the working directory.

### FILES SUPPLIED

Montana Solitaire for Windows is shareware. It may be freely copied and distributed providing the following five files remain included and unchanged:

|                     |   |
