

Adobe Authorized Learning Provider Program

Adobe maintains the highest quality training for its products through several certification programs which identify and support expert instructors and training centers and curriculum providers.

The Adobe Authorized Learning Provider (AALP) Program promotes **Training Providers** who offer classes in Adobe software taught by Adobe Certified Instructors.

The AALP Program also promotes third party **Curriculum Providers**, which offer materials for self-paced training, including Web-based and instructor-led training, CD-ROMs, videos, and workbooks.

AALP Training Providers

Use this list to find the Adobe software training provider that's right for you. This list is sorted by country, state, city, and instructor name.
