

14. What about Hack-Tic ?

XS4ALL was founded by the people editing the 'Hack-Tic' magazine. Our machine domain name was '@hacktic.nl' named after it from the beginning. We changed it to 'xs4all.nl' as that gives a better indication of what we try to do with our system.

The magazine doesn't exist anymore and it is not possible to have 'hacktic' or 'hacktic.nl' in your e-mail address.
