GAME MASTER ARCADE

I'm the Warden of Prison HRO2 and I welcome you new rookie to one of the worst prisons around this area. Here we got criminals who always want to escape! As a prison guard tower tracker, your job is to scope the area with your inferred spot light out all 5 prison bunker buildings in your view. I'll give you one warning, watch out for the red head chain gang who are the ones that seem to be wanting to leave my prison late at night. See if you can catch them all! Good Luck!

Note: This is a mini view of the full menu line.

Level is disable because this is not a free game! In the registered version level is enable

Trouble Shooting Guide

Since this game uses continuous sound effects in the background you'll need more than 4 megs of ram in your system. If you got 8 megs or more your're ok! But if you got only 4 megs then there is hope!

You'll need to create a new swap file in the size of 11264kb temp or perm. This will give full sound effects.

Follow the instructions in your Windows Manual about changing your Perm or Swap file size or go into your CONTROL PANEL and double click on HELP.
