```

1.4   Usage of MiraFIND V.1.0

```
                     The user  must indicate  in the  gadget "File" the
        AmigaGuide  file (created with  MiraNAVI) on which
        search the STRING.
        That STRING is indicated in the gadget "Find".
        Use the  button "Start" for begin the quest, after
        few seconds appear  MultiView with  the  desidered
        files.
        After consult the guide close MultiView and return
        in MiraFIND.
        For  default settings  use  the  ToolType  of  the
        "MiraFIND" icon.
        ---------------------------------------------------
        You may  call MiraNAVIGATOR  directly  in MiraFIND
        with the gadget "MiraNAVI".
        ---------------------------------------------------
```

```
