The following applications are currently available from METZ Software.

METZ Desktop Manager
METZ Desktop Manager is a Microsoft Windows application designed to provide you with a friendly menuing system plus several utilities. With Desktop you can easily create menus and sub-menus which directly access your applications and data (across directories and drives). Additional features such as a customizable screen blanker, windows arrangement functions, directory tree display, file finder, point and shoot file management, and an automatic menu generator are also included.

METZ Desktop Navigator
METZ Desktop Navigator is a Microsoft Windows application designed to provide fast access to your drives, directories, and files. File and directory management functions are included as well. Additional features such as a customizable screen blanker, windows arrangement functions, and a file finder are also included.

METZ Phones
Phones is a Microsoft Windows application designed for maintaining lists of names, phone numbers, and addresses. If you have a Hayes compatible modem, Phones has the capability of dialing the phone for you.

Time
A digital, popup, date and time display which can be placed anywhere on the screen.

Freemem
A moveable, digital, display of free conventional and free expanded memory.
