DESUTL - Collection of Windows utilities.
Current Version: 1.05

This library contains the following utilities for Windows 3.0:

RUN - allows the Windows user to execute several applications at the same time while giving each app it's own command line. Especially useful for starting several applications when starting Windows.

CLEAN - clears the Windows clipboard and squeezes as much memory from Windows as it can so that you can run those memory hungry applications.

CLOSER - allows you to close down Windows applications that the Task Manager can't, such as Windows TSR programs.

EXITW - allows you to exit to DOS from Windows without the Program Manager or File Manager arguing about it.

* Please put my name on your registration list and send me the next version free of charge
I currently using version _____. Enclosed is the required registration fee of \$10.
Please do not send me a disk or documentation \$10__

* Diskette with programs and documentation files..... \$10__

DESFUN - Collection of TSR's and teasers for Windows 3.0. All of these programs exit when they
 are finished.
 Current Version: 1.03

This library contains the following programs for Windows 3.0:

- FACE** - draws 100 faces at random intervals on the screen.
- BURST** - draws small cracked areas on the screen at random intervals.
- BURST2** - waits a random amount of time (no less than 1 minute) and then draws a very large
 cracked area in the center of the screen and exits.
- WIZ** - is similar to **FACE** except that this face is of the robot from the movie Wizards.
- EYES** - draws a pair of eyes on the screen that follow the mouse cursor. The eyes will randomly
 move around the screen.
- BUGS** - draws four types of bugs on the screen for a random amount of time and then exits
- FRIED** - is a program for any Friday the 13th. On that day it will put up a message that says "***
 Help me I'm a bug!!!**" and then it will spawn **BUGS** and exit.
