TES

@6

6

In tutorial 1, you examined the 3 records that come in the Master File as Test Data. They are for trucks with these license numbers:

0

STW366, UTR399, WRX332.

0

SERVICE PLUS [TM] relates activities to master records. In this case, those activities are service calls being related to trucks. But you could just as easily relate maintenance and service to hotel rooms, where each room received one master record; or plumbing activities to mechanics. The possibilities are endless! The phrase 'Service Call' that appears in the activity file can be changed to anything you want back at the custom options menu.

0

0

The Test Data contains 21 activities related to those 3 trucks.

0

We will now look at a few of those records.

@27 27
 G 0
 This is the main menu for the Activity File. In the next tutorial, we will Add a record to this file. For now, we are only interested in examining some of the existing records. To do this, enter 'G'.

Comments : Bracket for driver seat missing. Seat fails to position correctl
 . Reclines without moving forward. Replaced bracket.

Now we have arrived at the third activity for this truck.
 Let's say that instead of using 'N' and 'P', we want to Search
 for those activities for truck WRX332. First enter 'S' for Search.
 Then in the search screen enter 'WRX'.
