## **The Animator's Guide to 2D Computer Animation CD (PC only)**

**AcroRead** – If you don't have Adobe® Acrobat® Reader on your PC double click on **Ar405eng** to load it so you can read the PDFs on this CD.

**Movies** – Contains: **Furry Tales and Worm** and **Nice Day**. Double click on these to load them via Windows Media Player, or install them via your preferred viewer.

**Software** – Each sub folder in this section contains demo material/information from the relevant software developer. The intention is to give you a taste of the different 2D computer animation software available. To purchase a full copy of any of these packages contact the developers direct; address details are included in the book in Chapter 7.

**Animo v3.1 Demo** – There is no installer for Animo Demo – the applications can be run directly from the CD. (See **README** in this folder for more information.)

**Archer Demo** – To run the demo load **autorun** and follow the on-screen instructions.

**AXA** – Contains a direct link to AXA's website to download a demo version of the package.

**Creatoon V1.2 Demo** – To run demo go to the **Website** folder and open the file **index** in your web browser. Alternatively, run **CreaToonSetup** and follow the on-screen instructions. (See the **Readme** file for more detailed information.)

**Ctp** – To run the demo open the **Ctp 1.1 Release 11** file. Read the **Read Me Licence** file for more information on how to purchase a licence.

**RETASPRO Demos** – To load each application run **setup** in the sub folders: CoreRETAS; PaintMan and TraceMan.

**Toonz** – Contains a direct link to the Toonz website for up-to-date information on this package.

**toonboom demo reel** – Showcases a variety of work produced using toonboom. Double click on **Capture** to load via Windows Media Player, or install via your preferred viewer.

Thanks go to all the above software developers who gave permission to include this information and demo material on this CD.
