BMP BROWSE 1.0

BMP BROWSE - Setup & Problems

Before installing BMP BROWSE, you must have installed VBRUN200.DLL in your windows system directory.

USING BMP BROWSE

BMP BROWSE is a simple utility for looking at BMPs in a single directory.

To use BMP BROWSE just click on the drive and directory where the BMPs are stored. BMP BROWSE will display each BMP as selected from the file list. The nice part is that you can use your arrows keys to scroll up and down the list and BMP BROWSE will display the each of the BMPs as they are hi-lighted..

REGISTERING BMP BROWSE

BMP BROWSE is not freeware. It is shareware. If you like BMP BROWSE and continue to use it you must register it with Simplicity Computers. CD Master is protected by copyright laws. To register, print REGISTER.WRI and follow the instructions contained within.

FUTURE ENHANCEMENTS

What the future holds for BMP BROWSE is governed by the registered users. Register now to get your requests in for new features. If we like you new feature, and you are first to tell us about it, you will receive the update for free.
