

METALLICS

Create an alluring look with a metal luster or a translucent veil over decorative surfaces.

Tools and Materials

1/4" Nap Roller, Foam or Nylon/Polyester Brush, Painters Tape, Gloves, Drop Cloth, Paint Tray, BEHR Metallics

Recommended on trim, doors, molding, baseboards, furniture, picture frames, lamps, architectural accents and decorative metalwork. Can also be applied over an existing Base Color using various techniques and tools.

To Apply:

- Pour the Metallic product directly into a clean paint tray.
- Determine brush size based on your project. Apply using long strokes, allowing the first coat to dry approximately one hour. A second coat application of Metallic is recommended.
- Metallic colors can be sprayed when properly thinned. Refer to label for instructions.

Over Faux Finished Surfaces:

- After the Glaze Color has dried approximately four hours, apply BEHR Metallic over the decorative finish using the same application tool and technique.

Option: Add a Metallic luster to a Venetian Plaster finish. Mix 4 to 6 oz. (1/2 to 3/4 of a cup) of Metallic with one quart of Venetian Plaster Topcoat. Refer to the Faux Textures guide for step-by-step application instructions.
