We're sure you'll find this game to be of the highest quality. It will provide you with hours, weeks, even years of intelligent and challenging game play.

Because we have chosen to sell this game as shareware, the price (\$19.95 U.S.) is well below that of software of similar quality you might purchase through traditional channels.

With your registration you will receive a code which will unlock all features of the game. This includes all of the skill levels, and unlimited internet play.

In addition, as new versions are released, you will be entitled to free upgrades over the internet.

If you register the CD-ROM (Only \$10 more, Shipping and Handling INCLUDED) you will receive the above, as well as the shareware versions of our other fine games. This version makes a great gift.

Buy directly from the authors, and get a great deal on a great game!
