

# Apple Color StyleWriter 2500

## Features

### Outstanding print quality

- Prints Macintosh documents in millions of vibrant colors at high resolution—up to 720 by 360 dots per inch; to ensure consistent high-quality results, the printer automatically chooses the optimal ink density for the paper you're using
- Gives you a choice of 64 scalable TrueType fonts for printing in any size and in a variety of styles
- Allows you to combine vivid color images with true black text on the same printed page
- Uses Apple's ColorSync technology to ensure the closest possible match between the colors you see on your display and the colors printed in your documents

### Convenience

- Takes advantage of the high performance of PowerPC processor-based computers to speed the processing and printing of complex documents
- Features a small, sleek design that fits on virtually any desktop
- Prints quickly (up to 5 pages per minute in black-and-white; 0.66 page per minute in color)
- Offers the option of printing on a wide range of media, including plain, premium, and glossy paper, transparencies, back-print film, and envelopes
- Automatically turns itself on when it receives a document and turns itself off when it finishes printing

### Ease of use

- Supports plug-and-play connection to virtually any Macintosh, PowerBook, or Power Macintosh computer
- Is easy to set up and install
- Provides "desktop printing"; you can print files by simply dragging them onto a desktop printer icon
- Allows you to place watermarks in the background of your documents quickly and easily
- Lets you print two or four reduced-size pages on a single sheet of paper, saving paper, ink, and time for review of multipage documents

The Apple Color StyleWriter 2500 is a compact, elegantly designed ink-jet printer that provides outstanding performance for both color and black-and-white printing. It's ideal for home, education, and small-business users who require convenient, superior-quality color capability without compromising true black text.

With its 720- by 360-dpi resolution for both color and black and white and its support for ColorSync color-matching technology, the Color StyleWriter 2500 easily prints high-quality text and images. It even features optimal ink density, which automatically adjusts the ink saturation to provide the best possible output on a variety of media (papers, transparencies, and back-print film). And the speed of this printer is also a strong point: the Apple Color StyleWriter 2500 prints up to 5 pages per minute for black and white and up to 0.66 page per minute for color.

Whether you use the Color StyleWriter 2500 to print your household budget, your child's latest art project, a class handout, or a customer presentation, you'll appreciate the quality and convenience of this printer's fast-drying, water-resistant ink. And you'll find the Apple Color StyleWriter 2500 equally convenient to own. It's extremely simple to set up and can be shared over a network in several ways. Through Apple's ColorShare technology, the Color StyleWriter 2500 can be shared with others over a LocalTalk, EtherTalk, or TokenTalk network. Or you can choose to add the optional LocalTalk module or the StyleWriter EtherTalk Adapter, for direct connection to a LocalTalk or EtherTalk network.

So if you want outstanding print quality and color capability—in a convenient, flexible printer—the Apple Color StyleWriter 2500 is the printer for you.
