In no event will Tech Express Software Be liable to you for any damages, including any lost profits, lost savings or other incidental or consequential damages arising out of the use or inability to use these programs, even if Tech Express Software has been advised of the possibility of such damages.

Shareware Concept

Attention Only The Best Win95 Games CD-DISC users:

Much of the software on this CD-ROM is designated as some form of "Shareware."   Shareware software is not free.   Shareware is a try-before-you-buy method of software distribution.   Please read the individual author's comments on the registration of his or her product.   If you use a Shareware product you should pay for it - just like commercial software.   Shareware authors rely on your good will and honesty.

Some software, however, is designated "Public domain" or "freeware." Such software usually will not require any registration.   If a registration is required it is usually just a post card to the author - to let him or her know that you like and use the product.

All efforts have been made to insure that the disc is 100% virus free.   No known viruses are on this disc.

Enjoy the CD-ROM and please support Shareware.

Sincerely,

TECH EXPRESS SOFTWARE.

Trouble Shooting

A. Most of games need DirectX to control video and sound card.
So if you have display or sound problem in playing game. Please
go to "DIRECTX" directory to install DirectX software.

DirectX is a system component that allows for more efficient hardware
access.

B. Some programs will like to write data back
to the disk (like HIGH SCORE BOARD or USER NAMES).

This task is impossible to do on a CD-ROM Disc.
To such programs, it is best to run from a hard
drive if space permitting.

Please use mouse to select that game and click
the graphivc button to install the game
from CD-ROM Disc into your local hard disk
and play the game from the new generated icons.

If you like to   uninstall game from your local hard disk
then just use the mouse to click "Uninstall" button
to remove the game's program from your local

hard disk.

Install button:
This function allows you to install
game (program) files from CD-ROM
Disc to your local Hard Disk.

Uninstall button:
This function allows you to
removed files from Hard Disk
that has been installed from

CD-ROM Disc.

C. If you encounter a error code after execute
a program, then go to look at "EROR CODE"
in help manual and fix the problem.

D. If you encounter a Visual Basic Program which
gives an error message "Cannot locate
VBRUNXXX.DLL", then copy the Visual Basic DLL
to your Windows System directory (default
\WINDOWS\SYSTEM). Those VBRUN100.DLL
VBRUN200.DLL VBRUN300.DLL can be found
in CD-ROM Disc "\SYSLIB\VBRUN\" directory.

E. If you encounter a program which gives an error
   message like "Can Not Open "MCI.VBX" ", then
   also copy the MCI.VBX to your Windows System
   directory (default \WINDOWS\SYSTEM).
   The others *.VBX files can be found in CD-ROM
   Disc "\SYSLIB\VBRUN\" directory or program
   resident directory.

F. Video Troubleshooting:

   Your computer must display al least 256 colors to run   some games.
   To display 256 colors in Windows 95.
   1. Click the start button, points to settings, and then click Control Panel.

   2. Double-click the display icon.
   3. Click the Settings tab.
   4. Under color Palette, click 256 colors.
   5. Click Ok.
   6. Close and restart Windows 95.
   If you don't have the necessary 256 colors driver, or if you aren't
   sure that your video card supports 256 colors, contact your video

   card manufacturer.

G. Audio Troubleshooting: Sounds Not Playing Properly
   If Your computer does not play sound properly, try the following list of

   of troubleshooting steps.
   -Verify that your speakers and the Windows 95 volume control are
     turned up.
   -Verify that Windows 95 can play .WAV files:

   1. Click the start button, points to settings, and then click Control Panel.
   2. Double-click the Sounds icon.

   3. Try to play a .WAV file.
   -If Windows 95 is not able play a .WAV file, check to see a sound card is
     enabled:

   1. Click the start button, points to settings, and then click Control Panel.

   2. Double-click the System icon.
   3. Click the Device Manager Tab.
   4. Click the plus sign next to sound, Video and Game Controllers.
   5. If there is no Sound, Video and Game entry or you have no
        sound card listed under this entry, contact the manufacturer of your

        computer or sound card and request reinstalling the sound card
        drivers.

Install/Uninstall Program

Please read the following information before installing 101 Only the Best Games.

1. To install 101 Only the Best Games CD-ROM program,
    select Run from the Windows 95 Start menu, and run
    "D:\setup.exe".
    (D is the CD-ROM drive number).

2. As Only the Best Win95 games installed, you have two steps:

    .   1. Where to install Only the Best Win 95 Games.
    .   2. Config the game to run in the Windows 95 Program folder.

For the installation location, if you override the default and specify your own directory, the CD-ROM program will be installed in that directory. The directory will be created for you if it does not exist. If   there are already files in that directory, The CD-ROM program will be placed right alongside them. To avoid confusion, it is recommended that you install CD-ROM program into an empty directory.

3. To Uninstall Games, you have two options:

    .   Use Windows 95 Add/Delete program in control Programs control panel.
