

Technical Support Policy

This policy replaces any previously published policies.

ProVenture, now a division of Elibrium, is committed to providing customers with excellent technical support, and we have trained representatives available to address questions and product issues. Technical Support is available for an additional fee. Since Elibrium's goal is to provide powerful, low-cost software solutions, we have chosen *not* to include technical support costs in the price of our software. However, we are happy to provide this service to those customers looking for additional assistance.

RECOMMENDED STEPS BEFORE CONTACTING TECHNICAL SUPPORT - Look in the online help (open the **Help** menu and choose **Help Topics**) or check the Frequently Asked Questions in the Support section of our Web site (<http://www.mysoftware.com/proventure>) for answers to your questions. Both the online help and the Web site have information, such as helpful hints and last minute updates, that may not be included in the manual.

BEFORE YOU CALL - Please have your credit card ready, the program running, and your serial number available. Your serial number is printed on the diskette label or the CD envelope. Also, if you received an error message while using the program, please provide the exact wording of the message.

WHEN YOU CALL - Your call will be answered by an automated voice system. You will be asked to enter your credit card number—this is done so that we can handle your call more efficiently. Be assured, your credit card will not be charged until you reach a support representative and begin describing your product issue.

SUPPORT PRICING - For current Technical Support pricing:

- Call our Technical Support line at 510-273-2026. (Calls to our support lines are toll calls, but this ensures we can keep our service prices as low as possible.)
- Check the Technical Support Policy in the Support section of our Web site (<http://www.mysoftware.com/proventure>).
