# Install the wallpaper from Windows Display properties

To install the wallpaper, please follow these steps:

1. Click 🔟 to open the Display Properties dialog now.

Display Properties	? ×			
Background Screen Saver Appearance Plus! Web Settings				
Wallpaper   Select an HTML Document or a picture:   Straw Mat   test   Tiles   Triangles   WallMaster Wallpaper				
OK Cancel Apply	,			

2. Click the "Browse" button.

3. Find the wallpaper file you want to set, e.g. if you previously installed the wallpaper pack to "c:\ wallpapers", please go to this folder first and choose the wallpaper you want to install.

4. Click "OK" to display the wallpaper on your desktop.

Using the Windows Display Properties, you can only set one wallpaper at one time and it's very inconvenient if you have many wallpapers on your computer that you want to see on your desktop. It's highly recommended that you download WallMaster to manage your wallpaper collections easily!
