

CIR_READ.WRI for Version 1.0

Thank you for your interest in CIR_CALC.EXE which is a Shareware product from Orion Software Company. We hope you find this product useful.

As Shareware, you are granted a license to examine and evaluate the product for ten (10) working days without charge or obligation. After the evaluation period, registration is required for continued use. Please read the Definition of Shareware and NOTICE, in this file, and the License and Warranty agreement in LICENSE.WRI for further information.

PURPOSE:

CIR_CALC.EXE is a circle program which calculates Area, Circumference, Diameter, and Radius. It is one of a series of geometric calculation programs available for Microsoft Windows from Orion Software.

The programs include graphical pictures of the geometric figures and scroll bars for each value that can be calculated. All calculations are in units and decimal units which are valid for any system of measurement.

SYSTEM REQUIREMENTS:

Any hardware that will properly run Microsoft Windows Version 3.0 or later in Standard or Enhanced mode.

Microsoft Windows Version 3.0 or later.

VBRUN100.DLL (VBRUN.ZIP) dated May 10, 1991 or later.

PACKING LIST:

CIRCLC10.ZIP - The distribution file.

README.TXT - A short file in text format.

CIR_READ.WRI - This file.

LICENSE.WRI - Software License, Copyright, and Warranty agreement.

CIR_CALC.EXE - The calculation program.

DEFINITION OF SHAREWARE: (Copied from ASP)

Shareware distribution gives users a chance to try software before buying it. If you try a Shareware program and continue using it, you are expected to register. Individual programs differ on details -- some request registration while others require it, some specify a maximum trial period. With registration, you get anything from the simple right to continue using the software to an updated program with printed manual.

Copyright laws apply to both Shareware and commercial software, and the copyright holder retains all rights, with a few specific exceptions as stated below. Shareware authors are accomplished programmers, just like commercial authors, and the programs are of comparable quality. (In both cases, there are good programs and bad ones!) The main difference is in the method of distribution. The author specifically grants the right to copy and distribute the software, either to all and sundry or to a specific group. For example, some authors require written permission before a commercial disk vendor may copy their Shareware.

Shareware is a distribution method, not a type of software. You

should find software that suits your needs and pocketbook, whether it's commercial or Shareware. The Shareware system makes fitting your needs easier, because you can try before you buy. And because the overhead is low, prices are low also. Shareware has the ultimate money-back guarantee -- if you don't use the product, you don't pay for it.

Orion Software Company
P.O. Box 1913
Bellingham, WA 98227-1913 U.S.A.

Registration for CIR_CALC.EXE - Please fill in the appropriate information and enclose a check or money order in U.S. funds.
