How to Play

Mouse
        You can click the left mouse button on the falling lith to rotate it. By clicking to the right or the left of the lith, you can move it from side to side. You can also use the right mouse button to drop the lith into place.

Keyboard
        You can use the following keys on the number pad to control the position of the falling lith:

'6' or the right arrow will move the lith to the right
'4' or the left arrow will move the lith to the left
'8' or the up arrow will move the lith down
'2' or the down arrow will drop the lith
'5' will rotate the lith
Escape key will pause the game

        You can also change the function of the up and down arrow keys as well as the space bar by selecting the 'Assign Keys' menu option.

        When you complete an entire row, the row will disappear and you will earn points. The more rows you complete at the same time, the more points you will earn.

1 row = 1 point
2 rows =   5 points
3 rows = 10 points
4 rows = 20 points
5 rows = 50 points
6 rows = 100 points

Emlith Commands

[Game] Menu Commands

[Option] Menu Commands

[Game] Menu Commands

New

Starts the game from the beginning.

Pause

Pauses the game so you can do something else without losing your position in the game.

Resume

Resumes the game from pausing.

Stage Forward

Advances to the next stage in challenge mode.

Stage Backward

[Option] Menu Commands

Play Mode...
         In this option, you will select playing mode and kinds of liths.   There are five options as followings.
     Size 4   All the liths will be made up of four blocks.
     Size 5   All the liths will be made up of five blocks.
     All Liths   Will randomly select from all sixty possible lith shapes.
     Challenge   The game will progress with different liths as you complete stages.
     Selected Liths   Randomly chooses liths from the ones selected with the [Select...] button. (See also <u>Select Liths</u>)

Frame Width...
         Lets you change the width of your playing area except in challenge mode.

Assign Keys...
         Lets you change the functionality of the up arrow, the down arrow, and the space bar.

Settings...
         Change the settings on the screen as followings:
     Background   Lets you select the background color of your playing area.
     Sound   Enables/Disables sound during the game.
     Vertical Lines   Displays vertical lines across the playing area.
     Monochrome   Sets the game colors so they will be usable on a monochrome monitor.
     Save Size when Exiting   When this is checked, the size and the location of the window will be saved when you exit the game.

Default Size
         Change the window to the default size.

Select Liths

You can select liths from the total of sixty kinds of liths.   Left click on the lith to select so that a frame around the lith will appear.   Left click again on the lith to cancel.

How to Register

Request for Registration
　　　The trial period for this game is a week.　If you decide to continue to play the game after the trial period passes, please register your name to this shareware.　Your contributions will be used to make better software.　Foreign registration is welcome.

After Registration...
　　　You will be able to choose the starting stage in challenge mode, and to select the liths you want to play with.　Request for Registration Dialog will not be appeared any more.　You will get information about new games and new versions as soon as these come out.　Once you register, you can use the new versions in the future for free.
　　If you find any bugs, please let me know.

How to Register

　　If you have a CompuServe ID:　First please fill out the registration form (rege.txt) included in the archive file.　Before send me money, send me the registration form by E-mail on CompuServe because I will be in the U.S. in a certain period, and you may be able to send a check to an address in the U.S.　Then make out a check or money order for US$10.00 to Yutaka Emura or a US$10 bill and send it to the following address or an address in the U.S. that I will let you know by E-mail.

　　If you do not have a CompuServe ID:　Print and fill out the registration form (rege.txt) included in the archive file.　Make out a check or money order for US$10.00 to Yutaka Emura or a US$10 bill and send it to the following address with the registration form.

Although I will be in the U.S. in a certain period, I can keep in touch by the following address and by CompuServe E-mail.　I will reply and describe how to register as soon as possible.

Address
　　Yutaka Emura
　　920-1, Higashihiratsuka,
　　Tsukuba, Ibaraki, 305 JAPAN
