

**WATCHER GRAPHIX**  
**KILLER SCREENS**  
**TO**  
**REPLACE THE MICRO MUSH STUFF**

BEFOR YA DO ANY THING STICK EXLOGO.TTF IN C:\WINDOWS\SYSTEM THEN READ THIS  
ITS SAD TO SAY BUT THE COST OF GRAPHICS PROGIES HAS GOT ME TO THE POINT OF IT YA KEEP  
THIS ONE YA NEED TO CHIP IN ON IT. I ASK \$3 AMERICAN. NOT A BUNCH BUT  
WOULD KEEP THIS STUFF COMMING.

And you would get a file posted to ya with 6 more screens. 3 screens would be for open and close stuff in windoz.95 and 3 more for wall paper to get rid of the clouds, rivites,bottons and the other stuff some one spent 1 minute making up.

lets get started there are 3 files we are going to rename old the first is c:\logo.sys to logo.old.  
the next one is c:\windows\logo.sys (ya i know looks the same but different directory) and finaly C:\windows\logow.sys. Just to make sure ya get it logo.sys is being renamed logo.old and the same with the other 2 files.

Now in the zip file ya got this from the numbered bitmaps, (222,333,) (bmp) are the ones you will rename. Ya this is getten long and boring but the next time ya doz it it will only take a minute or 2.

Rename any of the numbered bmp's to either logo.sys or logow.sys and put 1 of the logo.sys in c:\  
put the one logo.sys ya got left into c:\windows and last but not least put logow.sys in c:\windows

kewl move 2

now for the easy stuff the bmp's that just have a name and not a number stick them all in c:\windows. Ya I know well how do i see them. Hold on put the coffie and smokes down and do dis  
go to settings, then conrtol pannel, then to the little monitor thing (display) in the thing called  
wall paper scroll it and find one of your new bee's then just hit the old apply botton and kiss clouds  
rivites bottons squars and the rest of the micro mess stuff good by

If ya like this stuff or want custom stuff done, let me know [watcher2@airmail.net](mailto:watcher2@airmail.net) or [watcher1a@aol.com](mailto:watcher1a@aol.com). or see the old webb page at <http://web2.airmail.net/watcher2>  
and if ya brake out the old check book for the \$3
