

The X Files

DESKTOP THEME FOR WINDOWS 95

Created by Danny Sanders
Version 1.0, January 25, 1996

Introduction

X-Files - The Theme v1.0 is an X-Files desktop theme designed for Microsoft Plus! for Microsoft Windows 95. This theme includes special startup and shutdown screens, "purity control" recycle bin icons, great wallpaper, quality system sounds and much more!

Requirements

Microsoft Windows 95, Microsoft Plus! for Windows 95, an unzip program with support for long filenames like WinZip from Nico Mak Computing (Available from <http://www.winzip.com/>) and the file *vbrun300.dll* (available from every Windows software archive) located in your System folder for the screensaver to function properly. A screen resolution of 800x600 pixels or higher with 256 colors or more is recommended to get the best quality. People running Microsoft Windows 3.1 may be able to use certain parts of this theme to enhance their desktop by manually assigning the sounds, pictures etc. to the appropriate items.

Archive contents

File	Description
X-Files - The Theme v1.0.theme	Configuration file for X-Files - The Theme
X-Files - The Theme v1.0.rtf	Documentation in Rich Text Format (This file)
X-Files UFO Saver.scr	UFO Screensaver
Logo.sys	Startup image

X-Files Ringout.wav	Scully: "The truth is out there"
X-Files Startup.wav	Abbreviated version of the opening music

X-Files Wallpaper.jpg	800x600 wallpaper

Installation

1. Unzip the archive to a temporary location with an unzip program that supports long filenames like WinZip. (Available from <http://www.winzip.com/>) You should now have one folder and six files.
2. Go to the root folder of your boot drive (usually c:\) and rename the file *logo.sys* to *logo.w95*. Next, move the file *logo.sys* from the temporary location to this folder.
3. Go to your Windows folder (usually c:\windows) and rename the files *logow.sys* and *logos.sys* to *logow.w95* and *logos.w95*. Next, move the files *logow.sys*, *logos.sys* and *X-Files UFO Saver.scr* from the temporary location to this folder.
4. Move the folder *X-Files - The Theme* and the file *X-Files - The Theme v1.0.theme* to your theme folder (usually c:\program files\plus!\themes)
5. Go to the Control Panel, choose Desktop Themes, select "X-Files - The Theme v1.0" from the drop down list and click on "OK".

Distribution

This theme may be distributed freely so long as all files are kept together, no modifications are made and no money is ever charged for the theme in any form.
