[Using Aha](#)

# Technical Features

- 16 and 32 bit versions of Aha available
- Edits html, rich text, text, dbf, db files (only in 32 bit Aha)
- Scalable preview of html, rich text, text, dbf, db and bmp files
- Prints html, rich text (only 32 bit Aha), text, dbf, db and bmp files
- Fonts selection to print more characters per line
- Number of columns selection ( 1, 2, 3 or 4) to minimize wasted space per page
- Odd/even page selection to print on the back and front of a page
- Three methods of view/print selection:
  1. From file directory
  2. Drag and drop with your favorite file manager
  3. By selecting of a "save detect" directory. Any files saved in this directory will be viewed or printed.

# Introduction

Aha was developed to save paper and time by:

- Previewing files before printing
- Selection of smaller fonts to print more characters per line
- Selection of 1, 2, 3 or 4 columns per page to minimize wasted empty space
- Selection of odd/even page printing to print on back and front of paper
- Printing or viewing of files with the unique "save detect" feature.

# Requirements

## **Hardware requirements**

Any pc capable of running:

Windows 3.x for 16 bit version of Aha or

Windows 95 for 32 bit version of Aha.

## **Software requirements**

Windows 3.x for 16 bit version of Aha or

Windows 95 for 32 bit version of Aha.

# License Agreement

## License Agreement - READ THIS BEFORE USING THE SOFTWARE

BEFORE YOU START USING THIS PROGRAM, CAREFULLY READ THE TERMS AND CONDITIONS OF THIS AGREEMENT. BY DOWNLOADING AND USING THIS PROGRAM, YOU ARE CONSENTING TO BE BOUND BY AND ARE BECOMING A PARTY TO THIS AGREEMENT. IF YOU DO NOT AGREE TO ALL OF THE TERMS OF THIS AGREEMENT, DO NOT USE THE SOFTWARE.

1. The author grants to you a license to use this software, for a period of thirty days for evaluation and trial use purposes. If you find the software useful and decide to keep it after the thirty day trial period, you must register it. You may copy and distribute this software freely as long as you do not modify or omit any of the software or documentation that came with it.

2. THE AUTHOR MAKES NO REPRESENTATIONS ABOUT THE SUITABILITY OF THIS SOFTWARE FOR ANY PURPOSE. THE SOFTWARE IS PROVIDED 'AS IS' WITHOUT EXPRESS OR IMPLIED WARRANTIES, INCLUDING WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE OR NON-INFRINGEMENT. THE AUTHOR SHALL NOT BE LIABLE FOR ANY INCIDENTAL, CONSEQUENTIAL, SPECIAL OR INDIRECT DAMAGES OF ANY SORT SUFFERED BY YOU OR ANY USER OF THE SOFTWARE, EVEN IF THE AUTHOR HAS BEEN INFORMED OF THE POSSIBILITY OF SUCH DAMAGES.

3. The author upgrades the software frequently but reserves the right at any time not to release further upgrades or bug fixes of the software or, if released, to alter prices, features, specifications, capabilities, functions, licensing terms, release dates, general availability or other characteristics of the software.

4. Title, ownership rights, and intellectual property rights in and to the software shall remain with the author. You agree to abide by the copyright law. You acknowledge that the software in source code form remains a confidential trade secret of the author and therefore agree not to modify the Software or attempt to decipher, decompile, disassemble or reverse engineer the software.

## Benefits of Registration

When you register Aha, we will send you a activation code that disables the "NOT REGISTERED" message that is printed on every page. Registration allows you to use both the 16 and 32 bit version of Aha on one computer at a time. In addition to this all future upgrades and versions of Aha will be free to registered users. By registering, you will enabled me to keep on upgrading and improving this software. Registered users will have access to email support on the Internet and can also request further enhancements to the software.

## How to register

A Registration program "REGISTER.EXE" is supplied with Aha and an icon will be created in the program group. Run this program, fill in your details and send it to Kagi Software. As soon as we have received word from Kagi Software, we will send you your registration code.

# Using Aha

Start Aha by double clicking the Aha icon from the program group or by any other method to run the program. The Aha icon will appear on the screen and can be placed where you want it by left clicking on the bulb at the top and dragging it to the required position. You can drag and drop files with your favorite file manager onto Aha's Print or view button to either print or view a file.

Aha's options can be set by right clicking on the Aha icon. The following options will be displayed:

Configuring Aha - This is used to configure Aha the way you want it

Window - Opens a file manager window from where you can select files to edit, view or print.

The following drag and drop options are available:

1. Drag and drop a file from the file list onto the Edit box
2. Drag and drop a file which is too large for the Edit box onto either the Print or the Preview button
3. Drag a file onto the Directory list to move it

Printer Setup - Used to set up your printer, i.e. the printer type, paper sizes, etc.

Close - This will exit Aha

# Configure Aha

## Global

**Number of columns per page** - You can select 1, 2, 3 or 4 columns per page to be viewed or printed. Less space is wasted on a page if you use more columns. Experiment to see which is best for you. A selection of 3 is recommended for programming code.

**Double sided printing** - You can select double sided printing if you require back and front printing on the same page. First print all the odd pages and reinsert the pages to print on the other side.

**Interpret html files as text** - Select this if you prefer to view or print html files as text files.

**Monitor** - This unique “ save - detect” feature monitors a selected directory to see if any files have been saved in it. If so, it will view or print the file.

**Enable** - This enables the “ save - detect” feature

**Drive and directory** - This sets the directory to be monitored.

**View or print** - This selects whether the file should be viewed or printed.
