

“Propose It!™” REGISTRATION FORM

“Propose It!™” is shareware and is copyrighted by David Works. You have 10 days to evaluate **“Propose It!™”**. After that time, you are required to register the copy in your possession. The registration fee is \$25. When you register, I will send you a disk with the most current version.

This wonderful piece of shareware may be distributed by anyone as long as all of the files are sent along with it. Obviously, you can't turn around and sell it yourself as it is copyrighted. But if you are one of the national online services, shareware distributor, BBS or even a propellor head, pass it around.
