

Examples

Below are some pictures that were quickly made with The Black Box 2.0.

[egaCorp Logo](#)

The background was created by repeatedly applying HSB noise and Gaussian Blur to a solid blue image. Swirl made the pattern on the logo. Inner Bevel made it look 3-D. Drop Shadow made it float.

iquid Logo

HSB Noise and then Swirl were applied to a solid cyan background to make the hair-like pattern. Glass and Glow were applied to a selection in the shape of our logo.

tamped Out Logo

A selection in the shape of our logo was filled with solid purple. Then we applied HSB Noise, Swirl, Outer Bevel and Cutout to the selection. Glow was applied to some oval selections at the end.
